Dipika Yedge | Add Center drop down in Employee Master | High

---

Hi Manas,

As discussed, add center and State ( drop down) in Employee Master

Hello maam,

As discussed replaced **state's text box** with **center drop down** in employee master for country **INDIA**.  
**Please confirm above point.**

Also need to discuss any other development changes with manas sir and what to do with existing state data related to all employees with Dipika maam and manas sir.

Hello maam,

As discussed on call with manas sir and dipika maam.

Changes must be done on both countries as employee master is common module used in both countries.

Existing state data in employee master will be **emptied for both countries** (due to different data types), to make new changes (i.e change column name for employee state).

**Same for vendor's table.**

**Development changes - Also need to check whether state is used in any other MIS report to avoid any errors as column name for state in master table will be changed to center as required.**

Maam please confirm with above changes so we can proceed with further development.

Hello maam,

Following changes made on demo server for employee master:

- 1) Disable state textbox from master form, list, import, export.
- 2) Added Center drop down in employee master form and make it required.
- 3) Show center in employee list and tested for import, export employee master.

Please check and confirm in demo server.

Created demo login | Dipi Kalsare proper details ahoing in export also.

1 Query-

What about existing data? Is it possible to update center from backend?

Hello maam,

In order to update from back end will need your help.

UPDATE tbl\_mst\_employee SET empcenter = ? WHERE empslno = ?;

Create an excel containing this query. replace "?" with center id and employee id. Will explain you this process in detail.
