Incorrect time - Dubai | High

For the attached import file, field type for received_date is Datetime.

However when uploaded in software, AM becomes PM.

Mashreq Bank < CPV<SME<BV

Ouput in Reports<Mashreq CC, SME report

Sample case - 101948117

I have checked the issue, problem is with excel sheet datetime format for column "Date and time sent for BV (From Bank)" field while import.

Corrected Import excel sheet is attached.

Time is imported in 24 hours now, as attached in the screenshot.

Yes, the attached sheet can be used. If required can compare both the sheets. I have just changed the datetime format in the updated sheet.
