Navika, when can we go live?

Posted By : Navika Desai

D104

Date & Time : 29-06-2016 11:44:AM

Sir, if you refer the individual discussion, you may know that the points 71, 82,83,2 are not completely done on demo, hence cant put them on live.

Point 24 i have already confirmed as ok to be put on live.

Posted By : Super Admin

i will get back to you ...

I will discuss only July points...

Posted By : Super Admin

D104

Date & Time : 02-08-2016 09:08:AM

1. Can you explain me 48 related to archive, how it is not started while as I personally over look it and it is done

2. Point 27, we clearly informed you its technically not possible and asked you to either drop it or change the method

3. Based on my updated 29 is on live and done, please explain

4. 16 17 46 51 56 42 49 53 57 58 65 78 5 6 21 25 30 35 36 37 44 45 47 59 60 61 62 63 67 68 69 72 77 ar in August or beyond August so why included here? We are talking of July

5. 2, 18, 84, 19, 79, 1, 7, 8, 71, 10, 11, 17, 42, 46, 49, 38 are under discussion because of changes, enhancements or other reason for which both sides are responsible. We completed them but are not on live yet.

Pending with client - 39, 40 - Are they part of task list or API?

Not required - 25, 59, 60, 62 - OK

Posted By : Navika Desai

D104

Date & Time : 02-08-2016 11:13:AM

1. 48 - BCP/Mirroring is not done as far as i know, as we have not received any communication / confirmation on this. This was discussed to be done after archive. It has always been a part of task list, hence tracked accordingly.

If already done, please share the details of the BCP/Mirroring server and auto sync functionality.

2. 27 - Dropping it is not an option, we have to do this as mentioned earlier. Change method option - please share the details of the same as not shared earlier

3. 29 - We were awaiting the ratio of user to server, however i have now updated it as closed

4. I have just added an overall summary of all the tasks, hence mentioned here. I am not saying that it has been delayed. 63 is not a part of task list

5. Few points are completed for demo testing while few are yet to be developed or completely developed. Both sides are responsible, agreed. Infact these have been delayed more from our end this time due to late responses/testing.

39, 40 - they are APIs which were a part of task list.

Posted By : Navika Desai

D104

Date & Time : 02-08-2016 01:39:PM

Sorry,

1. 48 - Got the details for upload of functionality on demo site, however real time mirroring is pending.

Posted By : Kailash Kumawat

D104

Date & Time : 02-08-2016 03:08:PM

Hold points

33 - % search not possible in mysql

80 - fe productivity non mobile, functionaility confirmed by navika, only issue is need separate menu for superadmin functionality.

Pending (not initiated at all)

48 - BCP/Mirroring server : development team will start work after receving BCP/Mirroring server details. did,'t receive informat yet.

27 - not possible

29 - Server matters - Disk space usage, ratio of user to configuration, archive server costing: not related with development team

16 - technical manual write added functionality

other pending points are august or after august 2016.

Under discussion -

2 - development uploaded on demo,pending by pamac side(D103)

18 - development uploaded on demo,pending by pamac side(D99)

84 - development uploaded on demo,pending by pamac side(D101)

19 - archive module, development uploaded on demo,, but changes given by pamac (D100)

79 - development uploaded on demo, need help in testing (D114)

1 - uploaded on live(D110)
7 - Confirmed to go live, need to allot time for uploading (D110)
8 - development uploaded on demo, pamac need some changes (D115).
71 - development uploaded on demo, pamac need some changes(D102),
10 - Confirmed to go live, need to allot time for uploading (D109)
11 - development uploaded on demo,pending by pamac side(D111)
17 - dubai cases restore all database (D100)
42, 46, 49 - august points
38 - time not allocated

D104

Date & Time : 02-08-2016 07:41:PM

33 - agreed as hold due to non feasibility

80 - hold by PAMAC

48 - BCP/Mirroring server : development team will start work after receiving BCP/Mirroring server details. did,'t receive informat yet.

What information is required?

27 - not possible

we need this. please suggest a way out

29 - Server matters - Disk space usage, ratio of user to configuration, archive server costing: not related with development team

this is discussed and agreed as closed.

16 - technical manual write added functionality

already a part of task list and timelines were shared, hence please adhere.

Are there any further updates in the attachment apart from those mentioned above?

Date & Time : 07-09-2016 11:24:AM

Please share as an attachment.

Posted By : Kailash Kumawat

D104

Date & Time : 08-09-2016 11:57:AM

below points are not closed

18 - D99 : Quality Check , shimbi modified code on 19-Jul, till now pending from pamac side,

84 - D101 : (Appt re-sched from FE)

71 - D102 Tele cases : (Centralized/De-centralised Activity Master)

11 - D111: Add options to select region (cluster/center/subcenter) in employee master. shimbi modified code on 15-Jul, till now pending from pamac side,

42 - D116 (Verification is complete : Fe/Tele)

86 - D123 : Forcefully assign cases by Sup/Op Admin , from case verification tray during fe/tele seperation process

It is difficult to keep completed points for long time because it may cause problem in stable system.

If you tell us to go live after few months then it will be difficult to recall which files are changed and on which line number coding were changed for those points.

because coding files are same for all points and regularly they update.

If you don't need points then let us know , we remove the coding.

Please set deadline for your side also after confirmation on demo side.

It will be good if you give reason for Why,when and how for delay.

Posted By : Navika Desai

D104

Date & Time : 08-09-2016 01:42:PM

86 is not for forcefully assigning cases. It is for multiple attempts for tele verification.

Forcefully assigning of cases was a part of point 80 that is closed.

Points 18, 84, 71, 42 & 86 are interrelated with the function of fe & tele, hence these will be closed at one go. All web and app changes are tested okay, these should be closed by 20 Sep 16.

Point 11 - i shall reply in the relevant discussion.

No point in uploading changes on live for the sake of your closure if the tasks are dependent on other task or if the task does not fulfil the operations requirement. Hope you agree.

Posted By : Kailash Kumawat

D104

Date & Time : 08-09-2016 02:41:PM

while fix requirement please make it independent as much as possible, because interdependent task for longer period on hold will unstable the system.

Posted By : Navika Desai

D104

Date & Time : 08-09-2016 05:02:PM

Do you see an option to make these points independent? I am open for suggestions.

Few of these points are independent however just putting those on live will be like uploading incomplete links of a chain on the system. It should ensure seamless input and output, hence have mentioned that once all are ready, we shall upload on live slowly to ensure existing operations do not suffer.

Posted By : Bhavana Pachpande

D104

Date & Time : 09-09-2016 05:28:PM

Date for TAT?

Posted By : Navika Desai

D104

Date & Time : 16-09-2016 06:05:PM

Got details under point 88. But TAT was there already as point 38, hence updated under point 38.

Make changes in your sheet as well.

Posted By : Navika Desai

D104

Date & Time : 16-09-2016 06:45:PM

Timeline for point 27 & 16 has not been mentioned. Refer earlier posts in this discussion for details.

9 tasks are under discussion with back dated timelines. When will the team work on these? Will they be managed within the committed timelines? Why do i need to point out these obvious things?

Please note that the timelines you shared will be religiously followed as the discussions have already been done and there cannot be any delays on these.

Posted By : Bhavana Pachpande

D104

Date & Time : 19-09-2016 10:30:AM

1)Got details under point 88. But TAT was there already as point 38, hence updated under point 38.

Reply : Changes are made in the task list sheet. Point 88 removed. Added under same 38.

2)Timeline for point 27 has not been mentioned.

Reply

Point 27 is not possible.

9 tasks are under discussion with back dated timelines.

Reply :

Which points are we talking about back dated timelines ?

Posted By : Navika Desai

D104

Date & Time : 19-09-2016 11:15:AM

Point 16? Task with back dated timelines- you shared the sheet .. cant you refer that. The tasks are - 48,18,84,19,71,11,42,86,46

Posted By : Navika Desai

D104

Date & Time : 19-09-2016 12:12:PM

Point 53 - 6 Sep to 19 Sep?? No of days is 6. Then why so many days?

Posted By : Bhavana Pachpande

D104

Date & Time : 19-09-2016 05:33:PM

Point 53 - 6 Sep to 19 Sep?? No of days is 6. Then why so many days?

3 additional days have been added. Its mentioned in the sheet already for Engineer 2.

Additional 3 days included reason mentioned in : Extra Time Added List (given below): (Serial No 9, 11)

Extra Time Added List : This list is present in Engineer 2 tab below the main list.

More addition dates and days are added in the list and reason.

Also the no of days mentioned in the task list is for development done till uploaded in demo server not for changing and going live also excluding any bugs, additional changes,discussion,upadation of tasklist.

Posted By : Navika Desai

D104

Date & Time : 19-09-2016 05:41:PM

Reply pending for post of 19 Sep 11:15

Bugs are to be excluded and will have to be worked upon. I am really tired of repeating this statement over and again. This was already discussed and agreed between Pravin Sir and Siddharth Sir.

Additional changes / discussion will not come as everything is already supposed to be discussed before only.

Updation of task list is a regular process and has to be done at a set frequency. It was discussed that we will receive weekly updates, but we do not receive that update and have to ask for this always.

Posted By : Kailash Kumawat

D104

Date & Time : 20-09-2016 09:01:AM

Bugs and changes are included in timeline, there is no exclusion.

it is up to you to understand it or not. We include every time we spend on pamac project in timeline (like bug solving, discussion, myproject respond, phone conversation, skype chat, analysis, changes)

engineers are doing daily report, you can prepare report for it (weekly or monthly it is up to you). we don't want to waste time on it to write things again and again.

task list will be updated once in a week on every friday

Posted By : Navika Desai

D104

Date & Time : 21-09-2016 05:56:PM

discussions are to be closed before. We had discussed all points in Apr and again in Sep and discussions are still going on. Do you think the discussions will end at any point in time?

Posted By : Kailash Kumawat

D104

Date & Time : 21-09-2016 05:59:PM

you can see in excel-sheet, many points are closed or pending from pamac side.

now only those points are remaining which are changed by pamac or priority is low.

Posted By : Navika Desai

D104

Date & Time : 21-09-2016 06:25:PM

Why did pamac change the requirement?

Because initial discussion was incomplete, Shimbi did not discuss and understand the task completely, when considered in line with the existing system the change was necessary to get the desired output, changes and developmental restrictions made us change the requirement, also some obvious functions were not developed and hence had to be additionally instructed to be developed. Hardly few changes are directly a change from PAMAC. Our requirement was very clear since beginning, but gradually the development team made us change our requirement.

FYI - 4 critical tasks are still pending, 2 for mobile app changes and 2 other, 1 cannot be done & 8 are closed

Posted By : Rakhi Gaud

D104

Date & Time : 22-09-2016 10:55:AM

As per founding following are the pending critical points with its status :

19 - Pending because of extra change added.

38 - Working on it.

84 - Webservice changes done. Testing is going on (by Sandeep).

18 - Webservice changes done. Testing is going on (by Sandeep).

Please make changes and upload files for Point (18, 84, 42, 71, 86 & 87,58(deletion)) after Diwali once tested in demo, as per discussion with Rakhi and Bhavana ,Navika madam and Ganesh sir.

Whenever Fe submits the case from mobile app, it shouldn't remove from Case Verification List, except when case is Re-scheduled.

Please Update and share Task List for the mentioned changes.

Note: Files should not be updated on Friday of any week.
