AWS Multi regions Hosting for 100% redundancy

For India

India we have two option with AWS –Mumbai and Hyderabad so we can setup Multi Region within India

Here are two options for Multi-Region AWS hosting with 100% uptime SLA.

AWS Architecture diagram and pricing:

Option1 (with Single AZ RDS) :

<https://app.cloudcraft.co/view/26b68942-3bcf-4bbd-b6d0-e22b0257c0f2?key=aa2f2521-0053-4315-9307-06f7142f37e1>

AWS Calculator: <https://calculator.aws/#/estimate?id=63c3267204f858864eb9b6a2fc4491ddbc06ecbd>
 USD 962/month

Option2 (with Multi AZ RDS):

<https://app.cloudcraft.co/view/10a53c89-cae3-474e-8b56-1c41fbba1111?key=f36320d1-09f0-4efc-9372-da9142cccd5>

AWS Calculator: <https://calculator.aws/#/estimate?id=f20bee5f939b949beeb64ec7643feb27673cf899>
 USD 1,329/month

Note:

- Above pricing in on-demand and can be cancelled any time after one month
- Our recommendation is to go for on-demand billing for first 3 months and then switch to one-year commitment with AWS and that means discount of 25% on above monthly billing, only caveat is that you cannot cancel these services before one year and you need to pay costs for above resources whether you use it or not till

full one year is complete.

For Dubai

For AWS, in middle east the only region available is Bahrain and UAE

Check this link for estimated cost of AWS

<https://calculator.aws/#/estimate?id=8ebfaecc1587a8e72dfe1d82561ba0a3e900567c>

Our AWS Management fees:

Monthly fees:- 20% of your monthly AWS billing (GST extra)

Note:

- AWS portal setup and IAM access within two (2) working days after signup
- AWS management fees are fixed monthly; however, AWS usage is
- estimated and there will be variations on +/- 15% depending on usage. There will be billing alerts set, and prior approval will be taken if we anticipate a spike in usage than estimated.
- Two separate invoices are generated, one for AWS usage and one for management fees. Both bills are on a postpaid basis i.e, Invoices are generated on every 15th day of the month for the previous calendar month and need to be cleared by 25th of the calendar month. Eg. For AWS usage of Jan 2022, invoices are generated and sent by 15th Feb 2022 and need to be cleared by 25th Feb 2022.
