Point 72 : Export report format

- 1) Will this be a new module or existing
- 2) Will there be Option for - pdf, word, text report while exporting.
- 3) What will be the format for exporting.

Need more clarification on this Point.

Posted By : Navika Desai

D128

Date & Time : 07-09-2016 11:14:AM

- 1) you suggest what is feasible
- 2) yes, that is the main purpose of this task
- 3) Meaning?

What more clarification is required?

Posted By : Kailash Kumawat

D128

Date & Time : 16-09-2016 12:18:PM

please provide sample formates for pdf,word and text report.

Posted By : Navika Desai

D128

Date & Time : 16-09-2016 12:27:PM

There are no sample reports.

The template and format designed in pdf export design has to be in these three formats.

Posted By : Rakhi Gaud

D128

Date & Time : 22-09-2016 09:54:AM

As per our telephonic discussion on 20/09/2016 following are the points concluded :

1. It will be same as pdf report.
2. Will provide 2 extra options to download the reports in file format .txt and word document. Both options(checkbox) will be available in send to client tray as well as in export tray.
3. Both file format will use the template format designed for pdf report. Images will not be included. It will show the data as per compatibility of file format.
4. Merging of data(of same client,ref no and applicants name) in single file(same as pdf report) will also work for these type of reports.

Posted By : Navika Desai

D128

Date & Time : 22-09-2016 11:42:AM

3. Images are to be included in word

5. Even the summary page and the overall status and comments, all these will also be applicable for these formats.

Posted By : Rakhi Gaud

D128

Date & Time : 22-09-2016 12:16:PM

3. Images are to be included in word

- It depend on the third party component(plugin) which we will use to create word file.Let us know the file extension for word file .doc or .docx, so we can search for the plugin accordingly.

Timeline may vary because we need to search feasible plugin.

5. Even the summary page and the overall status and comments, all these will also be applicable for these formats.

- Yes.

Sorry I forgot to add this point.

Posted By : Navika Desai

D128

Date & Time : 22-09-2016 12:23:PM

.doc or .docx is a technical call. But the exported file should be compatible for both.

Timeline cannot change sorry, this should have been clarified earlier.

Posted By : Rakhi Gaud

D128

Date & Time : 23-09-2016 10:19:AM

We need to find feasible plugin for both extensions .doc or .docx, so it will vary the timeline.

Posted By : Navika Desai

D128

Date & Time : 23-09-2016 10:59:AM

Tis should have been considered earlier. It is not extra, hence have to manage within timelines.

Posted By : Kailash Kumawat

D128

Date & Time : 23-09-2016 11:42:AM

sorry not possible within a timeline because .doc or .docx both are developed in different technology and we need to find plugin who support table and image both featured on it with php. If plugin didn't support then not possible to deliver both features.

We can not estimate timeline now for third partly plugin and functionality.

It will be decided at the time of development and availability of plugin.

If you required this feature then let me know otherwise drop this feature.

just tentative timeline was given earlier.

Functionality clear after discussion.

Now we can not give timeline for this feature until plugin is not fixed and we need some time to search plugin and this will also be included in timeline(extra activity from development)

Posted By : Navika Desai

D128

Date & Time : 23-09-2016 05:43:PM

why was functionality not clarified at the time of earlier discussion?

how can you give tentative timelines and days required, then why did you take a month to decide on the time taken and the timelines?

Sid Sir,

request your intervention here. How can the timelines shared be tentative and we are being told about this almost 6 months after.

Posted By : Navika Desai

D128

Date & Time : 27-09-2016 01:51:PM

Response awaited.

Posted By : Kailash Kumawat

D128

Date & Time : 28-09-2016 10:45:AM

About plugins , it will take time , If found any feasible plugin then this development will be done otherwise you need to drop it.

Further you can talk with Siddharth over phone.

He is not in city

Date & Time : 12-10-2016 10:55:AM

Hope Sid Sir is back in city.

Sir please suggest on the discussion in this thread.

Posted By : Rakhi Gaud

D128

Date & Time : 05-12-2016 11:30:AM

Hi Sandeep,

I have done with the changes in export module for this point on local sever only.

But I observed that it is taking too much time to create .txt and .docx files if we select same cases for all 3 options(.pdf, .docx and .txt).

Because, for same cases system create html first and then using that html it creates reports and loop iterates each time for each type of file even if selected cases are same.

We have one solution on this, we can create .docx and .txt files with pdf option by default. Because system use same template for these reports. Separate option will not be there for .docx and .txt files in list page.

Please discuss this with Navika/Ganesh sir.
And suggest if you have any other solution.

call if have any query.

Posted By : Rakhi Gaud

Any update?

Posted By : Rakhi Gaud

D128

Date & Time : 08-12-2016 09:49:AM

Please update.

Posted By : Sandeep Ghuge

D128

Date & Time : 12-12-2016 11:56:AM

Hello Rakhi,

- Send to Client.
There is no change in requirement for export file. Navika madam and Ganesh sir Suggested that if combination of (.doc,.text,.pdf) taken more time then find out where taken time and minimize the required time by optimizing coding or other way but .doc and .text file cant merge with .pdf .
- Summary Page:
Shows error that "One report type for one applicant".

Posted By : Rakhi Gaud

D128

Date & Time : 12-12-2016 02:26:PM

Okay.

We will try to optimise the create and download report time.

But if no of file type increases then validations and conditions(checks) also increases, and we can not avoid that.

Posted By : Rakhi Gaud

D128

Date & Time : 16-12-2016 09:28:AM

As per our discussion(with Sandeep) :

Option for downloading the report types .docx and .txt will not be dependent on assignment of PDF template report, currently which is dependent.

For this we decided to do changes in PDF template assignment,

1. Changes in PDF template Assignment : Add options(checkbox) to select file type(.pdf,.docx and .txt).

According to selection of this option system will show options in export and send to client tray for report.

2. Changes in add/edit case : Changes in function where system save assigned pdf and excel templates in database.

These changes will take extra time(2 days).

Please verify and confirm.

Add/correct if anything mentioned wrong in above points.

Posted By : Sandeep Ghuge

D128

Date & Time : 17-12-2016 04:09:PM

Hello Rakhi

Yes agree about time for checking validation and condition.

Above two points are correct.

1) Added sentence : By-default pdf's check-box is selected and at-least one report type should be selected.

Posted By : Rakhi Gaud

D128

Date & Time : 19-12-2016 08:42:AM

Ok.

1) Added sentence : By-default pdf's check-box is selected and at-least one report type should be selected.

- Will set required validation and default value as 'pdf'.

Posted By : Rakhi Gaud

D128

Date & Time : 27-12-2016 11:51:AM

Done with the changes related to this point on local server.

@Sandeep : Please let me know, when should we upload this on demo site for testing?

D128

Date & Time : 29-12-2016 03:48:PM

Hello Rakhi,

I tested it on demo site.

Updated in template assignment,It's working fine.

After edit case , In "Send to client" list shows check box for respective export type like pdf, doc ,txt properly.

Export zip download complete .

Doc file testing

Bold letters (Titles) are appended below table.

Google Map Image not showing properly with respect to Height and width.

Text File Testing

Image are display blank.So can we place url instead of image.

Posted By : Navika Desai

D128

Date & Time : 05-01-2017 01:41:PM

Update on above points.

@Rakhi - what does point 2 in your post of 16 dec mean?

2. Changes in add/edit case : Changes in function where system save assigned pdf and excel templates in database.

Posted By : Rakhi Gaud

D128

Date & Time : 05-01-2017 05:06:PM

Updates:

Doc file testing

Bold letters (Titles) are appended below table.

Google Map Image not showing properly with respect to Height and width.

- Need to check these issues.

It is depend on the plugin(used to create .docx file), that what type of css it supports.

Text File Testing

Image are display blank. So can we place url instead of image.

- I think it is not secure to give image url in a file.

In future we will do the change to validate the user whenever he will open any image in browser.

2. Changes in add/edit case : Changes in function where system save assigned pdf and excel templates in database.

- System save assigned pdf and excel template ids in a table at the time of add/edit case.

So, as we did changes for extra two options(.txt and .docx) in export list and in pdf template assignment module, we had to do the changes in case add/edit module.

Posted By : Navika Desai

D128

Date & Time : 07-01-2017 09:54:AM

Doc file testing:

Why was it not tested earlier?

Text file testing:

We already route the user to the URL and the URL is seen in the browser address bar while hyperlink of the image is clicked. Is this secure?

Still I will check and confirm on this.

2. This means the system will check for template IDs and type of export template assigned one every add/edit?

Posted By : Navika Desai

D128

Date & Time : 07-01-2017 05:26:PM

Text file testing:

We already route the user to the URL and the URL is seen in the browser address bar while hyperlink of the image is clicked. Is this secure?

Still I will check and confirm on this.

- please put URL in the txt file (as discussed with Pravin Sir)

Please confirm once the changes are done and issues resolved. I shall then test the point.

Posted By : Rakhi Gaud

D128

Date & Time : 27-01-2017 04:29:PM

Please put URL in the txt file (as discussed with Pravin Sir).

- Done.

Bold letters (Titles) are appended below table.

- Resolved.

Please check and confirm above points.

Posted By : Navika Desai

D128

Date & Time : 31-01-2017 11:41:AM

Case report exported from system attached. Case ID 101904766

DOC File testing:

- 1) Errors while opening the doc
- 2) No borders in tables
- 3) Merged cells not shown accordingly
- 4) Colours of font and background not shown
- 5) Field values that are in next line are shown adjacent to same line (screen shot-cell value)
- 6) Extra Gaps between tables (screen shot - extra gap)
- 7) Font styles (bold,italics,underline) are not provided in doc

TXT file testing:

- 8) Special characters shown as html (screen sot-special characters-text)
- 9) Data of one cell and another is not separated. It has to be one below the other as there cannot be tables.
- 10) Field values that are in next line are shown adjacent to same line

Do you really feel that the text and doc reports that have been designed can be shared with the client as it is?

Date & Time : 02-02-2017 12:02:PM

Resolve everything, will check at one go.

Posted By : Rakhi Gaud

D128

Date & Time : 15-02-2017 05:26:PM

Resolved issues in .docx file.

Uploaded and tested it on demo site.

But there are some issue which I discussed with Navika(on skype).

1. Special Character not showing properly.

- Need to check and resolve.

2. In merged report next VT's report not starting from new page.

- Need to check possibility.

3. Fixed border size/color and fixed background color for all tables.

- Can not set custom css.

Using parameters setting given in used plugin.

Can you please verify?

Posted By : Navika Desai

D128

Date & Time : 16-02-2017 10:33:AM

PFB for earlier issues:

Docs

1) Errors while opening the doc - resolved

2) No borders in tables – as mentioned table style will be fixed for all tables (with n without borders)

3) Merged cells not shown accordingly – not done (screen-merged)

4) Colours of font and background not shown – Colors not done (screen-merged), background as mentioned table style will be fixed for all tables (with n without background)

5) Field values that are in next line are shown adjacent to same line (screen shot-cell value) - resolved

6) Extra Gaps between tables (screen shot - extra gap) - resolved

7) Font styles (bold,italics,underline) are not provided in doc - resolved

TXT file testing:

8) Special characters shown as html (screen sot-special characters-text) - resolved

9) Data of one cell and another is not separated. It has to be one below the other as there cannot be tables. - resolved

10) Field values that are in next line are shown adjacent to same line - resolved

11) I selected only docs, but system exported other case pdf also (screen-pdf+doc)

12) Still there are alignment issues (screen-alignment)

13) Italic text not shown in txt (screen-Italic text in txt)

14) Longer reports get truncated in txt (attached txt)

Txt seems more complicated than expected. Lets drop Txt output. Please provide your views if otherwise.

 Export.zip

[Download](#)**Posted By : Rakhi Gaud**

D128

Date & Time : 21-02-2017 03:40:PM

Docx

- 3) Merged cells not shown accordingly – not done (screen-merged).
- 4) Colours of font and background not shown – Colors not done (screen-merged).
- I have tried to resolve both issues, but the plugin which we have used, not allow to apply dynamic css in any way.

Other issues

11) I selected only docs, but system exported other case pdf also (screen-pdf+doc)

- It happens at the time of incomplete download of file because of any error.

12) Still there are alignment issues (screen-alignment)

- Need to check more.

13) Italic text not shown in txt (screen-Italic text in txt)

- Sorry, but it is not possible in txt file.

14) Longer reports get truncated in txt (attached txt)

- Trying to resolve this.

Issue is because of '<' (less than) symbol in text given by user in field.

Posted By : Rakhi Gaud

D128

Date & Time : 23-02-2017 10:11:AM

12) Still there are alignment issues (screen-alignment)

- In .DOCX file report plugin put new line after every html close tag.

I have checked summary page design(html). In PDF report it is showing as per design.

But as per I said above, plugin put a new line after heading in summary design.

There was one more issue of single quote in .DOCX file (showing like '&#39;'), which have been resolved now.

Please verify.

Posted By : Navika Desai

D128

Date & Time : 23-02-2017 10:40:AM

Docx

- 3) Merged cells not shown accordingly – not done (screen-merged).
 - 4) Colours of font and background not shown – Colors not done (screen-merged).
 - I have tried to resolve both issues, but the plugin which we have used, not allow to apply dynamic css in any way.
- Reply: Not to be done since not possible.

15) Please freeze the table design as border 1px and clear background. Are there any other parameters to be defined?

11) For fresh login and first time export also it is showing all reports, error remains.

12) Okay

As discussed yesterday, will confirm on txt export option by tomorrow as Pravin Sir is travelling.

Posted By : Rakhi Gaud

D128

Date & Time : 23-02-2017 02:56:PM

3) Merged cells not shown accordingly – not done (screen-merged).

- Used plugin not allow colspan attribute of table cell('td' tag).

11) For fresh login and first time export also it is showing all reports, error remains.

- Can you please share the process which you followed?

I need to reproduce the issue to find the root cause.

15) Please freeze the table design as border 1px and clear background. Are there any other parameters to be defined?

- Done.

No other parameter is defined.

Posted By : Navika Desai

D128

Date & Time : 25-02-2017 10:12:AM

11) Not seen now, will share if problem persists.

Posted By : Navika Desai

D128

Date & Time : 08-03-2017 05:21:PM

As discussed with Pravin Sir, option for txt export is not required as the result obtained does not solve the envisioned purpose.

D128

Date & Time : 06-06-2017 08:40:AM

DOCX will have either url or Image of PDF icon. We cannot use both like in case of PDF. It ignores any anchor tag used with image.

This was already discussed in D136.

Date & Time : 19-May-2017 18:00:16

3) For Doc file also we have to show URL like in case of txt file. Since anchor tags are not working in docx. Either pdf image can be shown only or only URL Link.

- pdf icon or image? but as i understand, that will not be a hyperlink. Then the complete URL link to be shown

Posted By : Navika Desai
D128

Date & Time : 06-06-2017 10:06:AM

Summary page report is not showing. case attached.

Also the size of the pdf (with just 2 images) is too much (around 900KB)

anythign done about the size of the pdf report?

Posted By : Bhavana Pachpande

D128

Date & Time : 13-06-2017 03:21:PM

The pdf size was increased because of the multiple uploaded image size. We have compressed the image size for this to reduce overall pdf size.

Date & Time : 13-06-2017 04:31:PM

Summary is shown for a sample case on mirror copy of live URL shared. But additional line is not added in summary page for more than one same verification type. Sample attached. Here there are 2 ITR, but only one is seen in summary page.

Hi,

pdf and word file shows blank though we have updated data.

Case ID-104683406

Posted By : Bhavana Pachpande

D128

Date & Time : 14-09-2018 08:18:AM

I have checked with activity PD for case id - 104683406.

The exported caseData.zip is attached. Please use mozilla firefox browser for send to client and export. Chrome browser is not supported, it will show blank.

For case data not showing , in pdf and docx file will have to check. Is this happening for every case or for some case id only. Also please share the PDF template name used for this case id.

Also please check if there is data in the actual case id which is to be shown in the pdf and docx file. If there is no data in the case itself it won't be able to show any.
