Image Log table

As per phone discussion , a new table(case_image_log) will be added for country 11 in demo server only for image log.

This will contain following columns :

Example :

image_log_id	case_id	image_name	added_by	added_date
1	1023345	/2017/12/01/11_1023456_image1.jpg	7	2018-04-01

Please confirm , before making changes.

Query:

Also do you want "image_field_name" in the log table to store the field_name from case table which is used to store the image.

Hello Bhavana

Table structure is ok.

Yes Please add field name also in table.

Please make this table for File So table will be

file_log_id	case_id	file_field_name	file_name	added_by	added_date
1	1023345	image1	/2017/12/01/11_1023456_image1.jpg	7	2018-04-01 10:34:27

Please make this table on demo site.

Hello Bhavana,

Thank you for making changes on demo server.

Now making changes on mobile for inserting data .
