Client mail received as below, please resolve:

Hi Navika,

We have received all data as expected pushed from your end on 12th April ,except KOTAK_MAHINDRA_KYC_BV and FE_SUBMIT_DATE fields data are null Please find the attached csv for your reference.

 PAMAC_BV.zip

 Download

Posted By : Rakhi Gaud

D92

Date & Time : 14-04-2016 03:18:PM

ok.

I will check the above point.

Regarding AES Encryption -

Please ask client for following details

We need to know some points will be used in coding.

1. key size use either 16, 24 or 32 byte keys for AES-128, 192 and 256 respectively.

And some sample example data which includes

1. json request string (send from Kotak to PAMAC) and its encrypted string.

2. json response string (send from PAMAC to Kotak) and its encrypted string.

So we can check the exact expected result on local server for encryption and decryption(using given key).

Posted By : Navika Desai

D92

Date & Time : 14-04-2016 04:30:PM

Asked from the client, will update/share once received.

Posted By : Navika Desai

D92

Date & Time : 16-04-2016 11:51:AM

1) Encryption:

Hi Navika,

We are using AES 128 bit Encryption Decryption algorithm with key Size of 16 bit.

Please also find attached doc for handling encryption and decryption.

2) Case data:

Hi Navika,

We have received all data as expected pushed from your end on 12th April ,except KOTAK_MAHINDRA_KYC_BV and FE_SUBMIT_DATE fields data are null

Please find the attached csv for your reference.

Please check and confirm.

D92

Date & Time : 19-04-2016 06:32:PM

Below are the encrypted json string pushed from kotak system to pamac.

Kindly decrypt ths same.

```
{"DEC_DATA":"1F3344379A2BDC1730DC25912577AF8E8ED5D8A07027D590339C379C1274A8CE4CC1F1804DF16AC3C6CA66F089660B4423152CA47CC4BF6A977B4518040E7655816543939D90B6
```

Posted By : Rakhi Gaud

D92

Date & Time : 20-04-2016 11:15:AM

Hi Navika,

Case Data Query -

I have checked case data file(PAMAC_BV.docx).

Client saying that KOTAK_MAHINDRA_KYC_BV and FE_SUBMIT_DATE fields data are null.

But FE_SUBMIT_DATE is there in data given.

Problem only in KOTAK_MAHINDRA_KYC_BV, it will be always null because in template it's field type is 'Fix', which is not editable in form.

And one more thing the case of given id '1011234' is not available in database.

Have you deleted it?

Posted By : Navika Desai

D92

Date & Time : 20-04-2016 11:23:AM

Case ID is 10 digits and they have mentioned 7digits. I have not deleted any case.

Posted By : Rakhi Gaud

D92

Date & Time : 20-04-2016 12:23:PM

Please confirm with the client regarding given case id.

I also checked case_no field for that value in cases table but not found any result.

Date & Time : 26-04-2016 04:49:PM

we will complete it by tomorrow.

Posted By : Rakhi Gaud

D92

Date & Time : 27-04-2016 12:12:PM

Hi Navika,

We have completed encryption and decryption with sample data and also checked the code with the given data by client.

There is some difference between the encrypted string given by client and encrypted string generated by our code.

To get the original JSON string, decrypted the encrypted string given by client.

Used online tool for this i.e:

<http://aes.online-domain-tools.com/>

Input :

"D4DC96F82F8E0584D0A156A20EEEE49A368D33F64ADBCA346A6580CA62DBE555735B46A2E28B4E51695A0AAC42A8EEE66D17EC7D0ED8CF8752B3CEE8C743E3E147A9A440ECE60274

Ooutput :

```
{
  "REF_NO": "Garima",
  "FE_NAME": "Joshi",
  "CUSTOMER_ID": 9832734651}DfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDfDf
```

You can see there are some different characters at the end of string.

When we have tried this :

Input JSON string: {"REF_NO":"Garima","FE_NAME":"Joshi","CUSTOMER_ID":9832734651}

Encrypted Data :

008A75034C07B15F3167954F7B28F2F2CD0E1D80B986E858D7958D28F2020E4937D49F5D06CCAE9892DBD8BAB3AEC52B3A13902766EB0D21C21722F619E23

And decrypted same above output, got below string:

Decrypted Data :

```
{"REF_NO":"Garima","FE_NAME":"Joshi","CUSTOMER_ID":9832734651}
```

Attaching the screens of decrypting string given by client.

Also find the php code in attachment we are using.

Please verify it.

↓ Download

D92

Date & Time : 27-04-2016 03:11:PM

Shared the query with the client, awaiting response.

Posted By : Navika Desai

D92

Date & Time : 27-04-2016 05:38:PM

Client mail:

Hi Navika,

Below are the encrypted json string pushed from kotak system to pamac.

I have checked the below string with <http://aes.online-domain-tools.com/> tool.

It is generating proper data.

Kindly decrypt ths same.

{"DEC DATA": "1F3344379A2BDC1730DC25912577AF8E8ED5D8A07027D590339C379C1274A8CE4CC1F1804DF16AC3C6CA66F089660B4423152CA47CC4BF6"}

Please check and confirm whether you are able to get proper data or not.

Posted By : Rakhi Gaud

D92

Date & Time : 28-04-2016 09:27:AM

Hi Navika,

I have checked above given encrypted string.

Now there is no special characters in string after decryption but it is not complete JSON string.

O/P is :

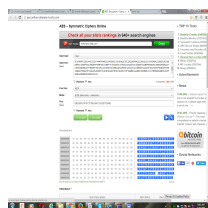

```

{"RESI_PINCODE":
"400014","VERIF
TYPE":"BV","RESI
_STREET":"","CUS
TOMER_ID":"203",
"APP_NAME":"MAO"
,"STATE":"Mahara
stra","RESI_ADDR

```

I":"Flat309","I
D":"1052","RESI_

Please check attached screenshot.

Posted By : Rakhi Gaud
D92

Date & Time : 28-04-2016 09:41:AM

Also ask to client that they are able to decrypt below string and getting proper data.

```
{"ENC_DATA": "4C9B330BBC7AD8E188CA244BF5AFFC7F667482FE688D27A12AA377522E1598E180C35C6AF54C0B6C7A69E3F076D09C963DAA403768574AE692E5276AC07E6499C3BE5FD998FA8E"}
```

Posted By : Rakhi Gaud
D92

Date & Time : 28-04-2016 09:50:AM
Hi Navika,

We are getting proper data from decrypted from given string by client -

```
i/p :  
{"DEC_DATA": "1F3344379A2BDC1730DC25912577AF8E8ED5D8A0702D590339C379C1274A8CE4CC1F1804DF16AC3C6CA66F089660B4423152CA47CC4BF6A977B4518040E7655816543939D90B8" o/p :  
{"RESI_PINCODE": "400014", "VERIF_TYPE": "BV", "RESI_STREET": "", "CUSTOMER_ID": "203", "APP_NAME": "MAO", "STATE": "Maharastra", "RESI_ADDR1": "Flat 309", "ID": "1052", "RESI_ADDR2": "Hadapsar", "RESI_ADDR3": "Kharadi", "RESI_CITY": "Pune", "RESI_PHONE": "8286353408"}
```

In my second last post I was checked it with online tool ,so please ignore that.

Date & Time : 03-05-2016 05:06:PM

Client mail basis our concall:

Hi Navika,

Try to encrypt "Hello From Java" String with same key shared with you earlier and share the hexadecimal string with us.

String st="Hello From Java"

Posted By : Rakhi Gaud
D92

Date & Time : 03-05-2016 05:26:PM

Today we had a conference call with technical team of client-

Point of discussion -

1. Which mode they are using for decryption.
2. Which algorithm they are using for decryption.

As per discussion, all parameters used in code are matching.

We are able to decrypt(in PHP) the string encoded in Java but they are facing some issue while decrypting(in Java) the encrypted string in php.

Now, they have requested to encrypt "Hello From Java" String with same key and share the hexadecimal string with them.

Here is the encrypted string : 5690E28E69924B43467EB9DE86CEEAEC.

@Navika, Please share this with client.

And one more request.

change one line of code and then check the output.

Cipher aesCipher = Cipher.getInstance("AES");

To:

Cipher aesCipher = Cipher.getInstance("AES/CBC/NoPadding");

yes,I will check and update.

Posted By : Rakhi Gaud

D92

Date & Time : 06-07-2016 11:36:AM

1.

I have checked with one of the given above :

CASE_ID=2902 ---

```
{"STATE":"MAHARASHTRA","RESI_CITY":"MUMBAI","RESI_PHONE":"8523690741","RESI_STREET":"","VERIF_TYPE":"RV","APP_NAME":"MAO","RESI_A  
JKKJKJ KKKKJ","RESI_ADDR2":"","ID":"2902","RESI_PINCODE":"900009","RESI_ADDR3":"","CUSTOMER_ID":"3154"}
```

Case received successfully, not found any issue.

Please request to client to share the encrypted data(final data sending to PAMAC).

2. Navika : Also checked yesterday's issue(discussed on skype) that you are unable to do send to client of below cases -

102082909,102082908.

Checked case 102082909, getting NULL in response from Kotak webservice.

PFA for more details.

I cant see 2902 case in case verification. where is it? Also there is json for another 6 cases apart from 2902, what about those?

Will share the other case response to the client.

Posted By : Kailash Kumawat

D92

Date & Time : 11-07-2016 10:47:AM

2902 rakhi will reply,

We just encode their json data and submit in our system it is submitted properly.

I think there is issue in encryption of json string on their side.

To resolve issue we need encrypted string from Kotak side.

there is no meaning to submit remaining cases because it will not solve the issue.

Posted By : Navika Desai

Kotak API changes that we have done on country demo, how much time will it take to upload on live site with testing?

We do not need to start working on it now, i need to know the time required to set client expectations accordingly.

Posted By : Rakhi Gaud

D92

Date & Time : 02-08-2016 11:41:AM

Hi Navika,

It will take 6 days to upload these changes on live -

First 3 days we need to change and update coding files and testing at our end.

Remaining 3 days for testing with client inputs.

It may vary the testing time as per frequency of client's response.

Posted By : Navika Desai

D92

Date & Time : 02-08-2016 11:43:AM

Will keep in mind the possible delay and end to end testing.

Thanks.

Date & Time : 03-08-2016 01:38:PM

Please help with the Live URL that will be used .

Posted By : Navika Desai

D92

Date & Time : 08-08-2016 11:17:AM

Rakhi,

The changes and coding are already updated on demo site, we just need to replicate those on live site. Still it will require 3 days for coding? please confirm.

Posted By : Rakhi Gaud

D92

Date & Time : 08-08-2016 11:30:AM

Yes, we can not upload coding files as it is directly from our local server(or demo server) to live server, since other changes also there.

We need to check and update only part of code and it takes time and testing also takes time.

Posted By : Navika Desai

D92

Date & Time : 10-08-2016 04:45:PM

Changes related to this to be done on live from 16-18 Aug. Please schedule accordingly.

Posted By : Navika Desai

Date & Time : 18-08-2016 03:01:PM

Product for this API will be 'Digital' as discussed.

Posted By : Bhavana Pachpande

D92

Date & Time : 19-08-2016 09:20:AM

What would be the new templates for Online kotak case. Please provide us the new template and their import template. We have to make necessary changes in webservice for this too. And make sure product "Digital" is assigned to those 2 templates.

Posted By : Navika Desai

D92

Date & Time : 19-08-2016 10:38:AM

Discussed with Kailash,

new templates will have to be created. As the existing ones are already being used.

Posted By : Bhavana Pachpande

D92

Date & Time : 19-08-2016 03:50:PM

1) Please provide us the url for verifying Case by Kotak before case send to client is done : Current URL provided is :

<https://mb.uat.kotak.com/MAO/WebServiceFactoryForIntegration/invitePAMACSECONDAPIRV>

2) If this URL is ok and not for UAT then, please ask kotak team to send case via the following URL :

<http://pms.resoftech.com/pamacapi/kotakapi/receiverequest>

3) Also Please check and confirm the new templates added for Kotak : RV and BV :

1) Kotak Digital-BV

2) Kotak Digital-RV

New product "Digital" is assigned to these templates.

I have checked the given url by sending above request data :

To check it from different server.

1. Sent given data from local server to live server - Data received successfully.

1. Sent given data from demo server to live server - Data received successfully.

No issue found in live site URL.

Case id : 102404855(sent from demo site)

Should I delete this case?

Posted By : Navika Desai

D92

Date & Time : 08-09-2016 01:33:PM

Hope the name of the case is test case. if so, then let it be in the system.

Will ask the client to check.

Posted By : Navika Desai

D92

Date & Time : 08-09-2016 02:58:PM

Please delete the pushed case from live.

Client mail for query as below:

Hi Navika,

We are using below mentioned url and request parameter to push data to pamac system.

URL:-<http://pms.resofitech.com/pamacapi/kotakapi/receiverequest>

Request Method:-POST

Request Parameter:-

{ "DEC_DATA": "002A24E599ECB9AC27A997835497D23D17438F98E2AADC4F70A74A99D25B31811A82BC50CA86B8F20D6179177FEC34288D3C27072D0627A"

Posted By : Rakhi Gaud

D92

Date & Time : 08-09-2016 03:17:PM

Removed pushed case from live.

And also check the given url again, not found any issue in accessing it.

Did some changes in code -

It will print the request data(from Kotak to PAMAC) in response(will not save any data in database), so we can identify url is accessible or not.

Please ask client to push some test data and to share the response.

Posted By : Navika Desai

D92

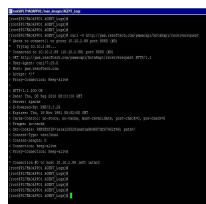

Date & Time : 08-09-2016 04:02:PM

additional data shared by client:

Hi Navika,

As discussed, please find the URL call from MAO Application Server, you can see **the GET request is successfully** sent to PAMAC via our Proxy Server (below proxy IP is internal not visible on internet)

Will ask client to push data

Download

Posted By : Navika Desai

D92

Date & Time : 10-09-2016 05:27:PM

Client mail please check:

Hi Navika ,

We have pushed new data from kotak system to pamac system, but we are not getting proper response, it should be in standard format as shared by you earlier.

Request you to please look into it at earliest.

```
<pre>
{"DEC_DATA":"002A24E599ECB9AC27A997835497D23D17438F98E2AADC4F70A74A99D25B31811A82BC50CA86B8F20D6179177FEC34288D3C27072D0627A"
```

Posted By : Rakhi Gaud

D92

Date & Time : 12-09-2016 09:01:AM

Yes.

I have removed that line of code which was used to print the data coming in post request from client to check access of that function.

Please ask client to push some test cases again and share the response.

We had put restriction on the user who should be able to do send to client.

However user Jainendra Mishra was able to do send to client and also the details were not received at the client software. Please check.

Posted By : Rakhi Gaud

D92

Date & Time : 26-09-2016 02:28:PM

Can you please share the login details of user Jainendra Mishra?

Posted By : Rakhi Gaud

D92

Date & Time : 26-09-2016 03:04:PM

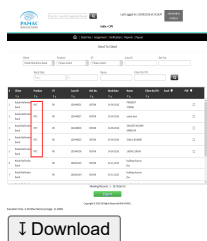

Hi Navika,

I have checked this using above mentioned user's account.

Product 'KYC' is assigned to this user and also able to see cases of this product only, find attached screenshot.

Product for this API is 'Digital' as discussed.

Please verify once.

**Posted By :** Navika Desai

D92

Date & Time : 26-09-2016 04:06:PM

Case ID - 102426625, 102426626.

You can check the case history

Posted By : Rakhi Gaud

D92

Date & Time : 27-09-2016 10:38:AM

Hi Navika,

I have checked above mentioned issue.

Condition of template id(used to show options for report) was incorrect.

It was of product 'KYC' instead of product 'Digital'.

Now I have changed it, and issue is resolved now.

Please verify.

As per client mail -

Hi Navika,

Above mentioned URL for UAT environment,

Request you to please use below mentioned URL for production environment.

<https://mao.kotak.com/MAO/WebserviceFactoryForIntegration/invokePAMACSECONDAPIRV><https://mao.kotak.com/MAO/WebserviceFactoryForIntegration/invokePAMACSECONDAPIBV>

Did above mentioned changes for URL.

And tried to send cases 102426625, 102426626 but still facing same error.

'Undefined error' - It means response is blank(NULL).

Please ask client to verify that they are receiving our request or not.

Posted By : Navika Desai

D92

Date & Time : 27-09-2016 11:01:AM

Done, awaiting to hear from them.

Posted By : Rakhi Gaud

D92

Date & Time : 27-09-2016 05:29:PM

As per client mail

Hi Navika,

We can only accept maximum 200 character for verifier remarks and same is applicable for other fields also, but getting more than 200 character for verifier remarks.

Try to resend verifier remarks less than 200 character for case id 102426625 and 102426626.

Please let me know if you face any issue in pushing data.

What we have to do now? Change in template for character limit of 200 chars only?

Posted By : Navika Desai

D92

Date & Time : 27-09-2016 05:37:PM

That changes operations shall make from front end. Nothing required technically here.
thanks.

As discussed with Ganesh sir, Currently we are not sending the data from API.

So please comment the code of sending request of data and also make changes in Send to client list.

Posted By : Bhavana Pachpande

D92

Date & Time : 20-02-2019 04:07:PM

Hello,

I have checked the code for live server file : application/controllers/user/ home.php

The fixed ids mentioned for Kotak api cases in the file are different from that present in the list page.

1) controllers/user/home.php :: Line No : 728

```
-----
if(($v['template_id'] == 547 || $v['template_id'] == 548)
    && $csidsdetails['client_id'] == 53
    && $csidsdetails['product_id'] == 85
    && ($csidsdetails['verifytype_id'] == 11 || $csidsdetails['verifytype_id'] == 12)
    && $typeflag == 'sendclient')
{
    $_SESSION['kotak_send_cases_arr'][$v['case_id']]['data'] = $this->Pamacapimodel->createjsonstr($v);
    $_SESSION['kotak_send_cases_arr'][$v['case_id']]['vt'] = $csidsdetails['verifytype_id'];
}
```

2) view/user/export/export_actwise.php : Line No : 195, 243, 276

```
if(($v['template_id'] == 129 || $v['template_id'] == 130)
    && $v['client_id'] == 53
    && $v['product_id'] == 22
    && ($v['verifytype_id'] == 11 || $v['verifytype_id'] == 12)
    && $typeflag == 'sendclient')
{
    if(in_array(@$_SESSION['sess_user_emp_id'], array('131','7','372','460','230','386','180','983','108','236','1278','150')))
    {
        $select_id= array(
            'type' => 'checkbox',
            'name' => 'export_chk[]',
            'class' => 'column_10',
            //id' => 'select_id',
            'value' => @$_k.'_'.$v['excel_template_id'].'_'.$v['case_id'],
        );
        echo form_input($select_id);
    }
}
```

I have compared files with demo also , i think view files of live server have country demo server file ids.

Please let us know should we comment them from both servers and update the view file ids also for live server.

Query1 : Also if we do so then the cases with template related to Kotak api will be available to other supervisors for send to client as per menu rights, also so as tat will also be calculated accordingly. It is ok ?

Query2: Are all the cases belonging to Kotak api already send to client and rest processing done ?
