Restrict pdf downloading from case verification

Hi,

On case verification page, PDF view option to be given however it should restricted to download PDF Report is it possible?

Downloading pdf from case verification is affecting sent to client process.

We require pdf view for QC purpose.

Technical efforts are same.

Application need to create PDF and render it on browser instead of force-full download.

I don't think , there is any application performance issue due to this.

We can provide force-full download PDF for user.

But if user open PDF file in browser then, it is not possible to restrict user activity(download and print)
