Cases to be archived - India

---

The attached 4207 cases are to e archived from Live India database.

Please confirm by when this can be done.

---

Db - ML - Archive.xlsx

Download

Archive module is not yet on live. So, what should we do?

Do you want to move these cases temporarily in backup like R5(Cases to be temporarily moved - Dubai).

If yes then please add it in task list and set priority too.

Last requirement was closed in 3 hours and that too with lesser number of cases (last time the count of cases was 22584)

Can we not do similar thing for this data as well?

We learn from our mistakes.

Last time also it takes times and we work extra.

same like in RSIL we work extra but you never appreciate and we didn't expect from you.

Now it is a conservative time line and it will take a day (8 hours).
