Field not added in template design | Emergency

Hi,

We are not able to add below field in template design

Is he /she working as BC for any other Bank OR premises being used for financial products of any other bank/FI? (Check for signboard/displays of any other bank/FI)

Field110

Template ID- 967

hello mam,

I checked in the browser, where I got that new label name is not replacing with its default label name. I will check the database and code if there is any validation is creating restrictions for this.

Give me some time for this

Hello Kailash Sir,

Please increase the varchar size in the database table. Where

table name :tbl_template_global_meta

and column name : field_label

varchar size : 500

So that label field in template design adds page accept this string and error will be resolved.
