Dedupe not found | Emergency

attached is the import file for Dubai, Mashreq bank - CPV - CC.

The case ID 101915962 is not seen in dedupe search.

Copy of Import file of Mashreq bank.xls

↓ Download

Issue have been resolved.

Please verify.

There was an issue with ' '(single space at the end with values) like 'MUHAMMAD NADEEM ' .

Now we trimmed it before passing it to any condition and issue have been resolved.

This change was done before as well. Why is the same issue being faced again?

I apologies for redundant issue.

There are two different functions for dedupe

One is to show highlighted duplicate records with an icon to show further list.

And second one is to show duplicate records list for selected case.

I have checked and compared both the functions.

And found that there was no issue in first function but in second function values not getting trimmed before passing it to any condition.

Now,I have did some changes and values get trimmed just after fetching it from import file.
