All clients shown in the drop down | Medium

All clients are shown in dropdown of Client id on all pages.

When proceeded in EBC activity, the dropdown shows clients of other activities as well.

Currently solving issue of Multi Import(Point 53) and then shall check discussion D123.

Need to help Sandeep for webservice changes too for Point 18,84 by Today. Shall check this bug once all these points are done.

I have checked the dropdown query. It's proper.

Also i have checked Employee Assignment , for client System Tester and OPs Admin and Activity EBC, both of them have country(India) and Activity(EBC) assigned to them as such , all clients are shown in the dropdown.

Screenshot Attached.

Please re-read the bug i have posted.

When proceeded in EBC activity, the drop down shows clients of other activities as well in all pages.

The same issue is for all activities.

screen shot attached.

When proceeded in EBC activity, the drop down shows clients of other activities as well in all pages.

Beacuse All India and Activity EBC is assigned to that Employee.

I have assigned only Client : "Supersoft Consultants" to OPs Admin for : Country India and activity EBC. Now if you check the client dropdown of EBC only "Supersoft Consultants" is present.

Screen Shot attached.

I agree with what you have mentioned above.

But is it not incorrect that other activity clients are also seen for one activity?

Date & Time : 26-09-2016 05:03:PM

No it is as per Employee Assignment. If all India is assigned to User for any Activity then all clients of India will be added for that activity.

If you want only particular clients to be assigned to User then you need to assign client to that activity.

This discussion would never end, hence closing.

You need to think from a user perspective as well.
