Point 5 : Same user can not login from multiple devices simultaneously.

As per discussion with Sir Kailash and Rakhi

1)Change in Mobile app & webservice, in login function to restrict the user from multiple login.

Response from Pamac

This will be done by Sandeep. If this requires changes in web application, share timeline.

Reply Shimbi:

This login will be only for Mobile app as such no changes required in web application.

This point will be covered by Sandeep. If any help/testing is required during changes in webservice we can help.

Any response required here?

Posted By : Bhavana Pachpande

D125

Date & Time : 12-09-2016 09:15:AM

No, just let us know when Sandeep will start making changes in webservice, so that we can schedule time to provide help if required.

Posted By : Navika Desai

Date & Time : 12-09-2016 12:14:PM

Sandeep will discuss this with you today.

Posted By : Kailash Kumawat

D125

Date & Time : 16-09-2016 12:15:PM

I think it was discussed between sandip and rakhi.

Sandip please post it here.

Posted By : Sandeep Ghuge

D125

Date & Time : 16-09-2016 05:59:PM

After discussion with Rakhi and Navika Madam.

1) For login purpose we pass additional parameter i.e.

IMEI, Model name, Location(longitude and latitude) with user name and password from device and all value will save in login table .

2) so modified login table will be as follow:

log_id	empslno	last_login	logout_time	changePSDflag	empcountry	imei	modelName	locationLatitude	locationLongitude	contactNo
--------	---------	------------	-------------	---------------	------------	------	-----------	------------------	-------------------	-----------

3) Condition of login will depend on imei number .

4) If second login failed then reply with following detail:

- Last location in text
- Last device name
- Last access contact name

5) In reset password operation imei number will be null.

D125

Date & Time : 20-09-2016 09:51:AM

I think we don't need to do anything.

Should Sandip do all web-service changes or any help required from us?

Posted By : Navika Desai

D125

Date & Time : 20-09-2016 10:48:AM

Sandeep is in an event today. Shall ask him to reply tomorrow

Date & Time : 22-09-2016 09:39:AM

Nothing pending from shimbi for this point. What is the closure date for this from pamac side?

Posted By : Sandeep Ghuge

D125

Date & Time : 22-09-2016 12:31:PM

Hello Kailash Sir,

Can I alter table on demo site in table name [tbl_login_log](#)

with following adding following column:

imei,modelName,locationLatitude,locationLongitude,contactNo

If not then Please do from your end.

After alter table I will start on it.

I will confirm you once it done.

After complete this , there is one help wants from your site i.e.

While doing Reset the password from Web application set above detail as null.

Posted By : Rakhi Gaud

D125

Date & Time : 23-09-2016 09:51:AM

Ok. I will add these fields(**imei,modelName,locationLatitude,locationLongitude,contactNo**) in login log table.

Posted By : Rakhi Gaud

D125

Date & Time : 23-09-2016 11:15:AM

Hi Sandeep,

Added given columns(**imei,modelName,locationLatitude,locationLongitude,contactNo**) in tbl_login_login demo site database.

Please verify.

Posted By : Sandeep Ghuge

D125

Date & Time : 23-09-2016 05:50:PM

Hello Rakhi,

Yes, I checked the table and its proper.

Thank you.

Is this closed? What are the next steps?

Posted By : Sandeep Ghuge

D125

Date & Time : 27-09-2016 02:32:PM

For complete implementation purpose i required one week .

After complete this , need changes in web application i.e.

While doing Reset the password from Web application set columns (**imei,modelName,locationLatitude,locationLongitude,contactNo**) details as null.

PAMC Team Should we assume Lowest priority or close?

Posted By : Sandeep Ghuge

D125

Date & Time : 27-03-2019 10:22:AM

Hi Bhavana,

I discuss with Kailash sir, related Single user login.

Can you tell me which table is used for login and logout track.

And currently which table is used for FE login track.

As discuss with Kailsh Sir,

1. We need to use IMEI number of user.
2. IMEI number field should add to Employee master.
3. At the time of login we will cross verify IMEI number.
4. Mobile application will logout automatically after half hour.
5. For this purpose we will used normal password and master password.
6. Normal password will work when Internet is available.
7. Master password will work when Internet is not available.
