Evaluation		

Note: The Technical interview (1 – 7) is to be conducted based on 5 questions in each topic ranging from easy to very difficult. The last 3 items were based on generic questions on the subject. The scoring is made on the correct answers given by the candidate for these questions. The areas of technology are based on our current needs and expected future need. Any area not covered above can be added and any area not wanted for the specific candidate or position can be marked as NA (not applicable).
