Template Assignment issue | Emergency

Hi,

in template assignment below combination is available. Which we have deactivated to upload new template.

Template Name	Country Name	Client Name	Activity Name	Product Name	Verification Type	Status
Aditya Birla Finance - CPV - RL - RV NEW	India	Aditya Birla Finance	CPV	Retail Loan	RV	In-active

While assigning new template for above client with same product & VT combination "Activity Name already exist for same criteria." msg showing on screen.

Hello sir,

I worked on that Bug where I found that there is a condition which takes some field value in if condition. Where all four fields are

Client_id ,
 Product_id ,
 Verification type and
 activity_id

So if we do change in script for the error-free query, we have to modify our code which can reflect another module too.
 So we will do this after getting permission by Sandeep Sir .

As discussed with Sandeep, new template updated in existing assignment.

Issue resolved.
