BOCL upload restriction of 1000 records

Hi Kailash

As discussed over phone on 4th Jan 2019, please make note that current upload option allow only 1000 records at a time due which ops is facing an issue of uploading the multiple file.

Please check and remove the restriction of 1000 records upload at a time.

We change it to 5000 but please do it when there is no load into the system.

We prefer to do it before 11:00 AM in morning.

It is not good to remove restriction.

Hi,

1) Please add 1 more column for BOCL Client rate in upload format.

2) Above value should reflect in Billing MIS & Sase detail MIS.

As discussed internally give permission to upload more than 1000 records will create load on the server hence same current permission of 1000 records upload to be continue.
