Dedupe result - List view change

---

For Dubai,

- 1) few fields are to be added in the list view seen for dedupe search result. Is this possible? How much time will this take?
- 2) Dedupe result should be categorised as per the search criteria with which the dedupe result matches. Example: Dedupe master field mapping has 3 criteria for dedupe check - i. mobilenno ii. offph iii. applicants\_name & name\_of\_the\_company. For the dedupe result for a case can we have it categorised as these 3 cases are as per criteria i., other 4 cases are as per criteria ii & no matches for criteria iii. Is this doable?

few fields are to be added in the list view seen for dedupe search result. Is this possible ?

=> yes, its possible to add fields in dedupe listing table.

"other 4 cases are as per criteria ii & no matches for criteria iii"

=> didn't get this point.

few fields are to be added in the list view seen for dedupe search result. Is this possible ?

=> yes, its possible to add fields in dedupe listing table.

How much time will this take? What details are needed from me?

"other 4 cases are as per criteria ii & no matches for criteria iii"

=> didn't get this point.

call anytime to understand this.

Refer attached excel, i have shared field names & field labels that are required to be shown for dedupe listing for DUBAI only.

When can this be scheduled?
