Delete Images (Send To CLient)

As per discussion with Sir Kailash, a new module has to be added as Delete Images, to allow Super Admin to manually delete images of cases based on send to client date (from and to).

Manually delete meaning? Where will these images go?

Also, we have auto script for archiving images for send to client cases after 93 days, then y this additional menu?

This menu is for deleting images permanently, accept current month. The images are archived before delete. This menu can be used in case when disk space emergency is full to remove images of send to client cases which are less than 93 days.

You can do it manually and won't be required to wait to delete images anymore for any particular month when disk space high alert occurs, if required.

As per Sir Kailash suggestion and discussion this new module is developed.
Please check.

Hello Team ,

As we seen Archived case's images are available in upload cases folder please check it .

For example case id =102527242,102803555

This is not uploaded on live yet only demo server.

Changes are uploaded in demo server. New sub-menu created under Super Admin menu as "Delete Image".

If confirmed we can upload on live. Please test thoroughly as it is for deleting images.
