FE rate | Emergency

Hi,

We have updated FE rate for below employee.

<

| Region/Zone | Centre | Subcentre | Activity | Product | Verification type | Pincode | Rate | Created Date | Modified Date | FE |
|-------------|-----------|-----------|----------|---------|-------------------|---------|------|--------------|---------------|---------|
| South | Bangalore | - | Audit | Asset | Audit | - | 30 | 24/01/2019 | - | Gopal P |

Through check case rate module we have updated rate from 1st Jan to 23rd Jan 2019.

For some cases rate showing 30 but for some cases its showing old rate which is 20.

Check attached billing MIS for your reference.

when I debug this function there was data proper flowing bt with the test URL there are few data, which is missing that is giving the error. once I will form this I will be able to explain to you why this is not working.

Posted By : Jayant Singh

C76

Date & Time : 12-02-2019 03:20:PM

At the time of check, case rate I put a condition where

if country = india

fe = Gopal

VT = Audit

then emp rate will be save as 30

```
elseif(
    $_SESSION['sess_user_country_id']=='11' &&
    $rate_param_arr['fe']=='3185' &&
    $rate_param_arr['verification'] == 124
)
{
    $emprate=30;
}
```

in which activity mam

Posted By : Jayant Singh

C76

Date & Time : 19-02-2019 02:36:PM

As I found that in that module these are few various steps for Employee rate. which used to find the Employee rate value from the system-

- 1.) Without FE
- 2.) Rate without pincode
- 3.) Without FE
- 4.) With FE
- 5.) If rate not exist as per given pincode value
- 6.) Without FE
- 7.) If rate not exist as per given pincode value

After Discuss with manas sir, I will tell you the final point till these are remaining to discuss.

Date & Time : 20-02-2019 03:21:PM

Hi,

Resolve this ASAP.

Posted By : Jayant Singh

C76

Date & Time : 20-02-2019 03:54:PM

hello mam,

I am already working here for getting those condition but there multiple amounts of conditions available. To find the conclusion I have to store all outputs from all previously created logics. it is really complicated and time-consuming. i discussed with Kailash sir about this too.

I will inform you as I get this.

Posted By : Jayant Singh

C76

Date & Time : 25-02-2019 04:27:PM

As I already reply here there are 96 conditions to fetch Emprate where these all are grouped in these few categories -

- 1.) Without FE
- 2.) without Pincode
- 3.) With FE
- 4.) If the rate does not exist as per given Pincodevalue

And when I test these condition as manas sir suggest me to do with these -

1. All selected bt No Pincode (-Validation Error for Blank Pincode -)
2. No Fe no Pincode (-Validation Error for Blank Pincode -)
3. Pincode selected (center, activity, Verification Type, Pincode)
4. Pincode and Fe (center, activity, Verification Type, Pincode)

If you want any change in Employee Rate Module please Ask about this to Kailash Sir And then Post in MyProject.Till you can close this Bug.

And this is Part of CHANGE so no use to open this in BUG.

Date & Time : 27-02-2019 08:49:AM

Please discuss this over phone,

It is not a bug, it is a change requirement.

Application already have FE rate logic in place which is working properly as per discussed criteria.

If you want to fix fe rate for one FE for a particular VT then i have few questions

- 1) Is it a temporary arrangement or permanent ?
- 2) In future will this extend to other FEs ?
- 3) In future will this extend to other VTs ?

Posted By : Dipika Yedge

C76

Date & Time : 27-02-2019 10:00:AM

Hello Sir,

- 1) Is it a temporary arrangement or permanent ? - No
- 2) In future will this extend to other FEs ? - Yes
- 3) In future will this extend to other VTs ? - Yes

Hi,

As checked for above cases shared in excel file it is showing 30 as emp rate checked in database.

Please provide new excel for which this issue you are facing.
For reference about provide excel cases emp rate an image is attached for reference.

Date & Time : 27-02-2019 03:36:PM

Please check attached Billing MIS.

Also note that we also update FE Rate for below FE's

| FE Employee Code | FE Employee Name | FE rate | Activity | Product | Verification Type | Cer |
|------------------|------------------|---------|----------|---------|-------------------|-----|
| P65645 | Gopal Krishna P | 30 | Audit | Asset | Audit | Bar |
| P65548 | HARISH N | 30 | Audit | Asset | Audit | Bar |
| P65788 | MOHAMMED SALMAN | 30 | Audit | Asset | Audit | Bar |

Hi,

As checked in database above FE don't have pincode in employee rate master and after discussing with Deepika mam, The rate to be captured for combination of employee rate except pincode. Since the current combination is based on Pincode, Need to discuss with Kailash sir.

Posted By : Kailash Kumawat

C76

Date & Time : 28-02-2019 09:43:AM

in Application preference is below for fe rate

pincode

fe

VT

product

activity

subcenter

center

zone

country

If you want to change this order then let me know.

We check case id 105124708

Please see screenshot.

It is fetch row no 47 from screenshot for fe rate.

Let me know your fe rate row from employee rate section.

In your above reply pincode is not there, you updated rates without pincode , if pincode rate exist in system then it will pickup that rate.

possible solutions

1) it is better if you delete pincode wise rate records

Or

2) add pincode wise rate for these FEs

Date & Time : 28-02-2019 04:15:PM

As per discussion with Kailash sir and Manas sir following changes to be implemented
Employee rate module for capture rate without pincode

Master side changes

As discussed with Manas sir following changes to be done

A)Employee rate master Add/edit page:

- 1)Add checkbox with label 'assign emp rate without pincode' which will make pincode field toggle
- 2)if checkbox is checked pincode dropdown will be hidden and make fe selection mandatory

B)When capturing rate without pincode

function:getEmpRate

- 1)create function to check 'assign emp rate without pincode' is set in master emprate then capture rate without pincode, skip other conditions and return rate
- 2) if 'assign emp rate without pincode' is not set continue with existing conditions

It will take 4 days upto demo server. currently working on B373 will work after that on this change.

Hi,

Since the development time will be increased as change is big as i am working on change posted at 28-Feb-2019 16:15:48 will work on next change category-ICL,OCL change after discussion with Manas sir and Kailash sir

Posted By : Khamroddin Shaikh

C76

Date & Time : 05-03-2019 04:25:PM

table: employeerate changes

1)Add field in table:

```
ALTER TABLE `tbl_mst_employeerate` ADD `assign_emprate_without_pincode` INT NULL DEFAULT NULL AFTER `emprate_fe_id`;
```

2)Add record for view page:

```
INSERT INTO `tbl_mst_employeerate_meta` VALUES (17,'assign_emprate_without_pincode','Assign Employee Rate w/o Pincode',5,NULL,',NULL,NULL,1,1,NULL,NULL,',NULL,NULL,4);
```

changes commented as C76:

1)Controller:adminmaster.php

A) function:add()

change: added condition for field assign_emprate_without_pincode

B) function:edit()

change: added condition for field assign_emprate_without_pincode

C)added callback function checkFeSelected()

2) View:admin/master/add

added form error for new checkbox in condition module=="employeerate"

2)added condition of check assign emprate w/o pincode is checked when submitting form

3) added employeerate js function to check edit post values to show/hide checkbox and to dynamically hide pincode

model:frontmodel and controller:checkrate

1)New function checkRateForSelectedFE() created to capture rate for selected FE's without pincode.

2)getrecord() passing parameter added and some functionality added

C76

Date & Time : 06-03-2019 04:31:PM

C67 FE rate changes without pincode for country India (country 11) only

Total files changed:

A) view:admin/master/add

1)added form error for employeerate module

2)added employeerate as elsif condition to check checkbox while submit and empty pincode values if checked.

3)added employeerate module for edit page and hidePincode() js functions

B) view: admin/master/list

1)added list view yes no values for assign emprate without pincode value

C) model:frontmodel

function:getEmpRate()

1)added call to checkRateForSelectedFE() and return rate

function:getrecord

appended \$selected variable in function declaration to skip pincode join operation,

added condition to skip pincode join

2) created new function checkRateForSelectedFE()

D) controller:user/checkrate

Same as frontmodel changes

E) controller:admin/master

functions: add() and edit()

added function checkFeSelected() for form validation after checkbox checked

Changes uploaded on country demo server please check.
