Hi,

As per issue found in B166 and B167, verification type 'Residence cum office' also not selected to show its case in FE assignment page.

This setting is available in submenu page.

Please find attached screenshot.

Thanks,

Bhavana

The screenshot shows the Joomla! administrator interface for creating a new article. The 'Page Settings' tab is active. The 'Page Name' field is highlighted with a red box, and a red callout bubble points to it with the text 'Name and number are required'. The 'Page Name' field contains the text 'New Article'. The 'Page Name' field is required, as indicated by the asterisk and the callout bubble. The 'Page Name' field is also the only field with a red border, indicating it is the current focus or has an error.
