Point No.46(Client Billing module)

Screens are given in Task list. We need to do some changes in that.

- In first list columns are Cluster- Client Name- Centre Name, which should be like Client Name - Cluster - Centre Name - Subcenter.

- Multiple records of same client will be there as per(group by) cluster,center and subcenter.

- In first list columns are Cluster- Client Name- Centre Name, which should be like Client Name - Cluster - Centre Name -

Subcenter.

this is just arrangement of columns, if so, then ok

- Multiple records of same client will be there as per(group by) cluster,center and subcenter.

grouping was considered earlier as well in the sheet discussion, hence we had the arrangement of pop up on clicking the case count. Hope I understood correctly, if not then let me know
