Template Details

Hi,

As per our telephonic discussion, we require template design details in MIS.
It should contain all details of files.

Posted By : Khamroddin Shaikh

D180

Date & Time : 23-11-2018 02:33:PM

hi,

is it required activity, product, verification type etc. details?

because it is from another table.

please confirm?

Posted By : Dipika Yedge

Date & Time : 23-11-2018 02:42:PM

Yes. activity, product, verification type etc details require in MIS.

Posted By : Khamroddin Shaikh

D180

Date & Time : 23-11-2018 02:54:PM

hi,

based on above requirement, following points need to be cleared:

1) is there any search field required to limit the output?

because the template details fetched can contain large data and it will take time to fetch that data.

2) Excel export functionality needed?

As discussed with Deepika mam, following columns are not needed for Template details MIS:

- 1) Client name,
- 2) Verification type
- 3) Product

Date & Time : 19-12-2018 03:32:PM

//Task template details MIS

1)changes for invalid query issue in template details mis (test live server)

controller: admin/reports

function:valid_query()

line:320

and

function:preview()

line:358

//issue:skip date range issue for selected MIS reports

changes:

1)file:constants

created array constant:REPORT_ID_LIST containing the report ids, which are skipped from date range validation (template details MIS report ID 67 for live

add in constant)

line:123-124

2)view:admin/reports/preview

function:getrecords()

line:501 condition if(!in_array(@\$report_id,json_decode(REPORT_ID_LIST)) replaced instead different report ids

3)controller:user/reports

a)function:viewreport()

line:180:replaced !in_array(@\$id,json_decode(REPORT_ID_LIST)) && with previous different report ids condition (line:184 test live)

b) added condition for template details MIS

line:269-253 (on test live:252-256)

elseif(\$id == '67')

```
{
    if(@$_SESSION['sess_user_country_id']!="")
        $where_arr[] = "tbl_mst_case.case_country_id = ".$_SESSION['sess_user_country_id'];
}
```

Please add field Label name & Edited to column in report

Posted By : Khamroddin Shaikh

D180

Date & Time : 22-02-2019 02:38:PM

Hi,

Currently I am working on C69 after that i will make changes.

Posted By : Khamroddin Shaikh

D180

Date & Time : 23-02-2019 05:56:PM

Hi,

1) Field label column can be added without any problem but,

2) Editable To field require join of designation table and it will increase the query execution time which leads to increase in time to get report, please confirm.
