Client wise TAT MIS | High

Hi,

We have generated client wise TAT MIS and Case detail MIS for Bank of Baroda Client.

In case details MIS all cases were showing but in Client TAT MIS only 3 cases are showing.

Activity- CPV

Client- Bank of Baroda

Added Date- 1st Dec to 7th Dec 2018

\* in client wise TAT MIS there are only three type of product available like Retail, Business and auto loan

\* So in total nu, it combines all the same kind of product.

\* and in case of details MIS it shows all product with its different -2 category

\* 'total\_no' in client Wise - 841

\* total rows in case wise details - 841

====> Here total rows in case = sum of total nu in client

= Discussion remaining to confirm for proper reason ,with Sandeep sir =

Hi Jayant,

As discussed, while case importing we have selected sub center as MMCR.  
But in case details MIS it shows under wadala.

Activity- CPV

Client- Bank of Baroda

Zone- West

Center- Mumbai

Case ID- 105014163 & 105014189
