**Date & Time :** 02-06-2020 03:30:PM

Hello mam,

Currently working on this task as already mentioned above. I am checking the current webservice for changes.

Please mention the case id and template id to check , also will require a mobile app to check from your end.

Hello mam,

I have checked the app webservice file but did not find any xss filter changes there. But there was a code which replaced < to &lt; Since the code was from before i did not change it as it must have been added by Sir Sandeep. Please ask android developer why is this replacment required in mobile app. Is there any issue if i remove that piece of code?
