Hi,

Deleted previous improper (thought but it was right) image from application and regenerated but same image i.e. With no any label for the visited location.

Tested coordinates on different map sites, concluding that the visited location not have any label.

Reference:

<https://www.google.com/maps/place/25%C2%B009'50.0%22N+55%C2%B021'38.5%22E/@25.1642991,55.3582634,16z/data=!4m5!3m4!1s0x0:0x0!8m2!3d25.1638813!4>

<https://gps-coordinates.org/my-location.php?lat=25.1638813&lng=55.3606841>

Need to discuss with Kailash sir
