Country Demo - Export excel T | Medium

Hi,

On country demo web site, on clicking 'T' for export excel design, the page goes blank.

Please resolve.

it is same issue as before, already email to Pravin sir about process.

Please confirm,

Should we change the system or you will tell operational team to follow the process?

Hi,

How is this related to operations team following the process? This is export excel design. And that too on country demo.

Please go through the bug once again.

Hi,

I added a few templates in it under 'Edit' and it is again showing the same error, the page got blank.

Please resolve.

Hi Navika,

The actual issue was in type of column in database where selected template ids are getting saved. Now I have change the type of that column to save the large data.

Issue have been resolved now.

Also did same changes in live site tables related to this.

Please verify on both the sites.
