Today we are working on data recovery for invalid modified\_id and send\_to\_client\_time update for employee id 1289.

We shall check the case id for images tomorrow for request to google backup server.

We have requested images for the above mentioned case ids from cold storage.  
Once received we shall upload them to server.

**Query :** All above mentioned case ids have been archived as such you wont find these images by searching the case. Should we zip and upload them in a particular folder for you to download ?
