Bhavana Pachpande | The import sequence and the summary sequence should be the same

---

Hi Manas,

As discussed with Ganesh Sir,

As discussed, we want the verification type to be dynamic on the summary page. Inquire about how many days it will take for that.

Sequence should appear on the summary page as well as the verification type that will be imported.

Hello mam,

As discussed with Sir Kailash, we are going to get the process 2 for development where the summary page design will have fields names to be replaced from case table without the template id.

Also will try to finish this task within this week, but if any support task or other task is added it will delay.
