TAT not calculated | Emergency

Hi,

we have holiday on 3rd & 4th March, same was updated in RES holiday master.
Still cases uploaded on 2nd March showing TAT start date as 4th March instead of 5th March.

Same applicable to 21st March- for Holi we have holiday and same updated in Holiday Master.

Check attached case detail MIS for your reference.

Login- Myopsadmintest

Pass- pamac@mar

Activity- CPV

Added Date- 1st to 23 March

Error : File Not Found.

Hi,

After checking in database it is found that for Mumbai, Wadala location Holiday for Mahashivaratri is stored on date 3rd April instead of 4th March, It looks like user error he needs to add 2019-03-04 but added 2019-04-03.
Holiday Image is attached for reference please check and reply.

holiday_name	centre_name	centre
Maha Shivratri	Mumbai	2019-04-03
Holi & Doljatra	Mumbai	2019-03-21
Gudi Padwa, Ugadi, Telugu New Year	Mumbai	2019-06-04

Hi,

Check for 21st March

Posted By : Khamroddin Shaikh

C86

Date & Time : 26-03-2019 01:57:PM

File: user/home controller

function:make_zip()

line 4717: added

zone_id,center_id

to select string

since these values are passed to findnextworkingday() function to find the next working day.

Changes uploaded on live, if any issue arises then reply.

Date & Time : 26-03-2019 03:24:PM

Hi,

As there are total 5737 total cases of all four region for country India, it will extend other development time and need to discuss with Manas sir about the same as updating that much of cases is crucial task.

Date & Time : 27-03-2019 09:54:AM

Hi,

As discussed with Kailash sir, New script to is to be implemented to update tat details

Following fields to be updated for the cases:

- 1) tat_start_time
- 2) case_tat
- 3) tat_calculate_time
- 4) case_tat_status

is modified_date field is needed to update for case?

Please confirm or know any fields need to be updated with above fields.

BUG or NOT?

What is impact on system?

estimate time

Posted By : Kailash Kumawat

C86

Date & Time : 27-03-2019 10:05:AM

It is not a bug, human error, done by operation team.

Due to this we need to update TAT field(for 5737 records).

Ask development team to prepare a script, so in future if we face same issue no need to develop again.

C86

Date & Time : 27-03-2019 10:07:AM

Hi,

Human error was only for 4th March.

Proper date selected for 21st March, still TAT not calculated proper.

C86

Date & Time : 27-03-2019 11:05:AM

Hi,

Please check the url for tat updation information if it is proper then will implement further database updation logic.put case id of tat update details at case_id_here segment of url

https://testres.resoftech.com/check/checktat/case_id_here

The output of above script will show only information not update.

Please check for all four region (zone) cases the values are correct and reply.

Note: above tat_calculate_time is not updated, since it is already send to client date time in field value

Date & Time : 27-03-2019 12:34:PM

Hi,

new script will be created for tat updation.

So it will take 2 days to complete testing all the case tat updation.

Date & Time : 27-03-2019 06:17:PM

Hi,

As discussed with Kailash sir, Deepika mam and Manas sir

a new change is to be implemented consisting

- 1) View to upload excel file for tat calculation
- 2) A controller to update TAT details for each case provided in Excel file
- 3) A log file is created to keep track of the TAT updation

Posted By : Super Admin

C86

Date & Time : 28-03-2019 08:23:AM

so this is change ? Please confirm

C86

Date & Time : 28-03-2019 02:53:PM

Hi,

it was bug then later new change added so move to change requirement.

Posted By : Khamroddin Shaikh

C86

Date & Time : 28-03-2019 03:03:PM

Hi,

As discussed with Deepika mam changes are for only for send to client done cases, condition added to check send to client time is not null and case status is close.

1)Added constant TAT_LOG_PATH for /tat_log

2)Created new controller
controllers/admin/tatupdate

3)created new view to upload excel file to update tat details of cases
views/admin/tatupdate

4)Added menu for country 11(India) Case TAT update in Super Admin Menu
views/user/header

5) changes for direct send to client cases

Controller:home

function:impotList()

changes: set tat_start_time, case_tat to 0 and case_tat_status to within.

Changes uploaded on countrydemo please check and confirm for test live server.

C86

Date & Time : 02-04-2019 12:04:PM

Hi,

As discussed with Dipika mam, Direct send to client default value changes uploaded on test server.

Controller:home

function:impotList()

changes: set tat_start_time, case_tat to 0 and case_tat_status to within.

Please import direct send to client cases, check in case details mis for proper calculation, and reply for live deployment.
