Dharmendrakumar Vishwakarma | reload not require in FE Assignment menu

Right now if user select client ABC and list shows 100 cases, we want assign 100 between 10 FE's
We assign 1st 10 cases to FE 1 when we click on manual assign page gets reload and user have to again add all search criteria to again assign pending 90 cases to other FE.

So pls remove auto listing in the Assignment menu & stop reloading page .
