(All Members) | Task sheet May 2020 onwards

Dear PAMAC Team,

Please update here carefully revised and updated task list with priorities.

Everyone uses this thread, updating the task list here.

Only bugs will be reported in the Bugs section.

This arrangement is until; we close all threads.

I will be closely looking at this thread and also making sure all other threads are closing.

Here is the final list received through email and confirm by Ganesh to undertake for development.

1. We will start work on this list. We will update the list and upload it here once the task is completed. **(For daily progress, check daily reports.)**
2. Once started task can not be interrupted other than for BUG **(High or Emergency Nature)**
3. While we are working on one task, you may change the priority of other tasks. If changed, upload here.
4. The time given is based on **one developer, one deployment engineer.**
5. We expect you to respond to our queries in 24 hours.
6. No direct communication with an engineer for change of task or get some other job done.

We will do our best to finish the task before time if we get an uninterrupted time.

From the study of the 49 items and discussion between Ganesh, Dipika, Ajit and Ramki following is the status of the 49 items. All concerned to act on the same

- Following items to be closed: B468,480 ; C 169,94; D 218,220,252,253,254,242,245; R 97,112,123
Total 14

- Android related: C157; D 233,222
03 Total
- On going - no action required : D 217, 231
02 Total
- Done and to be tested (dipika) : C174,171,132; B483; R 120
Total 05
- For further discussions with Ops : C87,D199
Total 02
- Ganesh To Check: R 117,119; D221,248,256,257,258,260,261
Total 09
- Manas - Shimbi D241,262,264,266 (on going)
Total 04
- WIP (with Prasad): B481; D265; C143,173; R 122,125,126,127,128,129
Total 10

From the list it is found that there are some items in discussions which are actually changes or Requirements. I therefore, suggest that in future if an item pertaining to requirement or change is discussed the same should be done under that item so that it is easier to follow up or once the discussion is completed and a conclusion as to whether it is a change or requirement is done, then a new ticket should be raised under Requirement. Thus keeping the items in right perspective.

Hello team,

Please update Task List here in one format only as we used earlier with Priority Column. Excel attached. This will indicate which task is going on currently and which is next and so on. There are SHIMBI Remark, PAMAC Remark, Assign To and development days column also.

Note: The attached task list is **old**, please update that, remove task which are not required anymore and add new ones.

All tasks should be added with **Priority** in **order** and based on that development will proceed which will help to shift from one task to another based on priority after completion till Live server.
