(All Members) | ADIB-Score module | High

---

Hi Manas,

For reference check D265

As discussed there is a change in score module

If any of below fields score is 0 the entire reports score will be changes to 0

| Validated Office Landline:

| Office Location Type:

| Subject company signboard available at office door

| Business activity seen

| Trade License of the company displayed on the premises:

| Setup of Office:

| Website address and is the company website active:

| Number of Employees seen:

| Whether the applicant is related to the OWNER or AUTHORIZED SIGNATORY: If Yes Relation:

| FE Decision

Hello mam,

As discussed below is the flow process -

- 1) We will add a new checkbox in template design as "**Final Score Value 0 if any zero**"
- 2) On check the checkbox, we will check during the final score value calculation that if any of the score fields from the template used has 0 score then the total sum of all score fields will be considered as 0.

**Note:** Here we are changing only the total score calculation logic based on the checkbox from template design.

Please confirm above process. And also please add some demo template to test the same in aws demo server. As change is common for both India and Dubai server.

Hello mam,

It will take around 5 days to complete, also D266 changes synced in demo server have to update on live together with this change or before this change.

Hello mam,

As discussed extra point is added to the above mentioned process:

- 3) A new textarea will also show in template design when **Is final score field ?** checkbox is checked as **Score Zero Exception Fields**.

- 4) In the **Score Zero Exception Fields** textarea mention the field names (comma separated) for which score value 0 is to be ignored when calculating total sum.

Hello mam,

New changes are also updated in demo server for both India and Dubai, please check and confirm.

Also additional changes as discussed are uploaded too:

- 1) Unauthorized url access issue on click view score model sample button in Template Design for user other than Super Admin is fixed.
- 2) Validation change for select option to allow special character . and :
- 3) Search Template design using field name is also added now.

Hi Manas,

Checked with test case it's working proper.

Additional change require in template design

open text box of **Score Zero Exception Fields** only after user clicked on Yes check box
