(All Members) | Performance issue of Dubai server | Medium

---

Hi

Please make note that today we have received feedback from our Dubai Operation team that yesterday 11:30 pm ( India time) onwards till morning RES performance was very slow.

Kindly check whether any backup or activity was happening yesterday night, if yes and if it's schedule activity then please keep us posted in advance so that we can communicate with team or can schedule the activity on their weekly off days.

There was no such activity schedule.

To resolve the issue, we need to know exact issue, such as which operation, which activity etc.

Or in general server was slow
