Images Size

---

Hello,

As per discussion with Sir Kailash , we have checked the images/pdf files for 08 month which is 48GB and 09 month which is around 60 GB.

The images/pdf files of earlier month remained on average of 30GB.

Query :

- 1) Has the image/pdf upload size being increased ?
- 2) Has the number of uploads per month increased recently ?

Please reply as disk space keeps on getting above 80% all the time. We need to discuss this point as soon as possible.
