New module to upload missing case images

Hello,

As per discussion with Sir Kailash a new module is to be added for uploading case wise images/pdf which are missing.

From the backup of images on your hard drive , using this module you can upload images/pdf directly to their respective path. No need to request us for old cases missing images/pdf anymore.

Process :

- 1) A new menu will appear for Super Admin only as "Upload missing images/pdf" :: Suggest name if any.
- 2) Here user will enter the case ids, separated by comma or in a new line and click on search.
- 3) A list will appear with all the missing images/pdf and their respective path. This list will have a browse button and a upload button as its action.

Example >>

Sr No	Case ID	Image Name	Image Path	Action
1	10234566	10234566_img1.jpg	uploads/cases/ 2018/02/13/10234566_img1.jpg	[Browse] [Upload Btn]

Please confirm this module before development can start.

hi,

if confirm, i will start work from today. It will take 12 days based on half day work about task and half day about documentation otherwise it will take 6 days for full day for task work. So kindly reply about that also, should i do work according to half day or full day about the task.
