About Point 84

Point 84 : need to debug webservice and mobile app code simultaneously so need help of Sandip. We are clearing we service part ask Sandep to complete his part to clear this point

this will be done simultaneously with 82 & 83 i suppose as we are already giving an option for the fe to choose in mobile whether the case should go back to the tele calling tray (appt deferred).

Bhavana, Need your inputs here and correct me if I am wrong.

Sandeep, If required, please discuss the required with the team.

Point 84 development hasn't been started yet, only flow was discussed. Point 84 requires webservice changes , Point 18 Quality Check requires webservice changes too, we are debugging Point 18 first.

For point 82 and 83 (verified/wip) is not for FE , as discussed in D96, so no changes required for webservice. Changes have been uploaded in demo server.

Ok.

Hope the discussion and understanding for point 84 has been closed.

For web service and application changes, discuss with Sandeep and close.

Hello Sir,

I discussed with Bhavana related web-service changes .

As per skype discussion you are changing flow for point 84.

Why you are not stick with original requirement to keep deadline?

please separate point 82 and 83 from 84 and close them.

deadline will increase for point 84 because you are changing requirement.

please don't merge any point in future because it will increase deadline and you never accept it.

Point 82 & 83 has been separated already from point 84. Initially i thought they are in the same lines which are now clarified as independent.

POint 84 is as below

1) IF Fe selects status as re-scheduled and the date of the appointment is updated by FE, then after submission of case from mobile, the case to move to FE assignment tray. 2) IF FE selects case status as re-scheduled and the date of appointment is not updated by him, then after submission of case from mobile, the case to move to tele assignment tray

what have i changed here?
