Add New Employee - Send Email for Login Credential | Low

---

After adding employee...Need to send login link and password for first time login....Once user login with mail credential...next page is change password and than relogin once again

This is done.Only online testing is remaining.

Thanks,

Rakhi

Rakhi.....I am trying to login with credential [demo@shim-bi.com](mailto:demo@shim-bi.com) and admin123.

It asked change password. If i put change password than it is not accept nor pass any message.....

My Simple question first you need to check at local and than upload on server....Now i am totally stuck next level of test.....Why you upload without test ?. This create trouble to test other employee.

This is not a way of deal....I am sorry

Sorry, It was my mistake that I did not test it online after uploading files.

Can you please check it now.

Thanks,

Rakhi
