Dipika Yedge | Case Reject reason | High

Hi Manas

As discussed with you and Megha, we are not able to capture case reject reason in case history or any report

Hello mam,

Below is the New URL to be called in the new apk to be build using live source code inorder to test the changes in demo server.

https://demopms.resoftech.com/webservice/api_live_2_3_live

This new webservice added is copy of live webservice with rejectMessage field name changes.

hi dipika

I understand that this item was one in the Mobile APK also.

Would you please confirm with Megha and whether the concerned revised APK has been sent to all.

If yes, we may close this item. If no please follow up with concerned to close this.

Hello mam,

Please share the raw data for login id and password used for api call. I will check the same with postman.

Hello mam,

As i have checked via postman and web login the login credentials were wrong. If you are provided with login details, please first check if web login is working : <https://demopms.resoftech.com/userlogin/index>

I have updated the password and was able to do web login and postman request was also successful. Please check attached screenshot.

New password : Pamac@aug1

Hello sir,

Please let us know if we can push changes on live server as per above confirmation from mam Dipika ?

Hi

Manas is asking permission to move the change to LIVE.

As i have already informed you and Ajit, I will not Okay any code to be moved to LIVE Unless the test cases are received.

Dipika has not yet submitted the test cases for the above.

Please advise her suitably. A mere statement checked on demo server working fine is not OK with me.

Further, once the test cases are received (with full satisfaction or no issues), i will go through the CODE obtaining the same from Dharmendra

However, if you deem that such a statement is OK with you, i have no objection to your giing an OK to manas.

Hi

Please give me more details as to what has been tested and how. Preferable to attach screen shots and test cases.
