Special Character while import

System needs to check special characters while import and need to ignore the identified special characters and import only the acceptable data in software (without the special characters).

How much time will this change take coding + demo + live?

Should we show validation error if special character is present in import excel sheet or just ignore and sanitize special character and upload the csv file directly.

Import and Multiple Import modules. Task will be to check each and every field to sanitize special character. Need thorough testing. Plus total 5 copies are to be updated.

- 1) Local.
- 2) Local mirror copy of live.
- 3) Country demo.
- 4) Country demo mirror copy of live.
- 5) Live

One of the engineers can work on this and complete by 13th June 17?

Posted By : Bhavana Pachpande

D142

Date & Time : 08-06-2017 08:22:AM

One engineer is working on Point 72 summary page issue and another on requirement R16.

Posted By : Navika Desai

D142

Date & Time : 08-06-2017 12:01:PM

This is urgent, please start working on this immediately after point 72.

Keep me posted.
