Kailash Kumawat | Lat long for web

---

Hi Manas,

As discussed please add lat long facility on web for temp FE designation.

**Date & Time :** 04-05-2020 11:18:AM

Hello mam,

Need to discuss few points.

1) Is this point related to D215.

2) How will the case be assigned to new designation temp FE. Because without assignment case won't show in Case verification list of the newly created Temp Fe. Here we can use same Fe assignment menu to show Temp Fe name. Also can we use same designation FE for temp Fe.

3) For accuracy of Latitude and Longitude capture using Web browser, will have to test on different location and browsers also.

- 4) Also we can add a checkbox in employee master to make employee as temp Fe and not a new designation. Since this will require to add another field in case table for temp\_fe\_id.
- 5) What will be the payout process and which mis will help you to get the desired report. Or we need to modify or develop new mis.
- 6) The Temp Fe login will be same as Fe login in web app. So the menus will also be same as such we will add condition to show only case verification menu to temp Fe.
- 7) I think for case submit Fe assignment is compulsory . We have added a validation to check if cases is assigned to fe or not before submit.

Hello mam,

As discussed i will start working on this from tomorrow with new changes. Also will update changes first in demo server and then once confirmed in live.

- 1) New module : Applicant Assignment
- 2) New designation : Temp FE to be added.
- 3) New entries in employee master to be done for applicant login. The login here is not one time it remains as long as employee is active or not deleted.
- 4) Template design to have new checkbox for new designation Temp Fe.
- 5) When Temp Fe submits the form lat, long will be captured if supported by applicant browser or else error message will be shown and form won't be allowed to submit.
- 6) Validation for Fe/Tele assignment to be compulsory during form submission will have to be modified for Temp Fe as there won't be any Fe involved here.
- 7) Mis to be provided by Mam Dipika

**Note :** Development time will be 10 working days for all changes till demo server due to additional changes not disucssed before. If FE and temp Fe were same designation then some points from above could have been removed and development time would be reduced. to 5 days.

Hello mam,

As discussed on phone , please **note** field type of tmpfe\_id in 12\_backup tbl\_cases was unable to handle int type so converted to text, which can cause issue if country 12 archive sync is done in future due to field type mismatch.

R100

**Date & Time :** 13-05-2020 08:56:AM

We have to convert them all to TEXT type field or search for other solution.

Hello mam,

Above issue is resolved.

Also as per today's meeting with Sir Kailash and Sir Siddharth , it is suggested that we continue with thread D215 instead of R100, further details regarding this process is posted in D215, please check and confirm and till then this point will be on hold, if accepted we can close this point and start working on D215 directly.

**Date & Time :** 13-05-2020 12:06:PM

This process is temporary and will take time to develop.

It will be suggested to develop D215 and go live, it will be a permanent feature of the application.
