Hello mam,

Need to discuss more on this before any development. And also put task on task list.

Hello mam,

As discussed for adding an arbitrary column name and value in query please use below query syntax :

Example: Use inverted comma
"NA" as "DOCS SAMPELD",
"NA" as "SAMPLED DATE",
"NA" as "SAMPLED STATUS",
"NA" as "SAMPELD REMARK"

I have added this for **Axis MAB report** in live server, please check and if any other field is also required use same in report creation.

Hello mam,

Issue is fixed, you have missed a comma after "NA" as "SAMPELD REMARK" in report creation.

Please check now.
