Ramakrishnan V | Import and Export menu limitations

Hello team,

This thread will be used for discussion for max import and export limitations and current operations done in both the menus at a time.

Max import count should be- Max 200
Max Export/Send to client count - Max 110

Hi
the response to your query of max import 200 and max export 110 .
Please let me know whether these limits are achievable in the current application or not.
If yes please respond and we can close this discussion
If no, please give this as a requirement to Manas during the upgradation (if possible) and if not please let me know what would be required to achieve these limits.

Hello sir,

A new thread **D262** is opened for this to test for 1 user and will calculate same for online users at the same time doing the import and export activity.

Based on the results we can check the modules for any changes or optimization required.
