Dipika Yedge | Address on RES images

Hi,

Need to add address on RES images.

Add a check box in template design for it.

Hello mam,

Please check in with Android dev for webservice function or URL used to fetch template meta data and update here.

Hello mam,

We have made changes in webservice (Api_live_2_3.php) in country demo server for showing the extra field when fetching template meta : getTemplate().

Field name : show_addr_on_img, If value is set as 1 then that field must be considered to show address. And also field must be of image this needs to be done from Template Design.

Please discuss with Android Developer, if any other change is required from our end.

Hello mam,

 Please discuss with Android dev. and update here. I think she doesn't have Myproject access.

Dear Bhavana mam,

We have worked on the address print on capture image and its done.
but due to some issue The Address on image is not reflected on the api,so we are working on it
