Bhavana Pachpande | Unable scan images on demo server

Dear manas sir,
On demo server we tested dcr activity cases,here getting app crash,
On postman getting error code please find attachment.

Hello,

As tested in postman for upload image in demo server using postman, it is working. Please discuss with Abhijeet for further info.

Hello,

As per todays discussion and checking with postman, the field that is used for uploading images "applicants_name" is not of FieldType pdf as such image is not being upload, please check template design if the field used is of time PDF.

Dear Sir,

We have checked with new created cars24 dcr template on demo server, still getting error "Failed to update"
on res app,but at the same time in postaman showing response is 200 ok,

Please check attached file even shared parameters details.

Hello mam,

As discussed, we need to check the car24 template as issue is not found with any other template design for FE
submit.

hi,
As per our discussion ,we have tested both case cpv and dcr, Even also attached log file please check.

📄 verifed case logcat.txt
⬇ Download

this is cpv case log file which is tested on demo sever, got verifed successfully

📄 not verifed case log.txt
⬇ Download

this dcr case log file ,which is unable verified

Hello mam,

For DCR activity check the template design for any field issue with test case. As it is working for CPV it should work for DCR also as code is same.

Also please check if there is any character limit of any field which sometimes caused db error on insertion.

Hello mam,

As i have checked the apk after installation it is giving error in login, captcha is verified but login spinner keeps on loading.

Also this happened 2nd time login, 1st time it was successful. Can you please check from your end with any test case also remove all images from that case before submit.

hi sir,

As per our discussion, here i am tested one by one images every time.

please check attached file.

⇓ Download

first 6 scan documents where we are capturing more than one image and exported to pdf then submit after submission i got this this error, for first 1-6 scan documents got same error

⇓ Download

below scan document having single take photos options,here image got stuck ,if you took only checque1 image and submit,u will get image1 uploading in process, nothing happen next,in thid image filed some time got upload file error3 as well bad token
