RES is running slow | High

RES is running slow, both user and admin side pages.

Please check and resolve.

it was for some time.
We are checking any server side issue or MYSQL performance.

Hi,

RES is running slow since 2-3 days.

As discussed withKailash yesterday evening, the activity for removing the old data (prior to 3 months) was completed on Thursday evening.

We still have slowness in system.

Please confirm the reason for the same and resolve immediately.

Date & Time : 19-01-2016 10:09:AM
sever is slow due to server space and number of users increases.
We are changing some logic in code to reduce mysql burden on server.
