Hello,

As per checking the coding, i have found that the applicant name of the RCU activity are different which is causing the creation of different fields to repeat for different applicant value in the group.

There might be some mistake, if the Applicant name is same then only the columns are repeating. Please correct me if I am wrong.

Hi,
As checked there is date conversion problem
controller:user/excel_export
function:make_excel_zip()
for field type 10 in else condition found 2 locations are there
 $datetime_format_x=date('d-m-Y H:i:s',strtotime($datetime_val_x));
need to use

$datetime_format_x=date('Y-m-d H:i:s',strtotime($datetime_val_x));

Changes uploaded on countrydemo. Please check during testing login with mytest and select PAMAC live database and check.

Hi,
as discussed date problem solved but as tested some cases showing - value, even they have proper values.

solution: As checked in export emplate design :44
fields not added and ordered for the excel export of main template id: other documents
SPOC will make changes in excel export template design.

Note:Date changes uploaded on live please check.
