New Employee Assign | Low

During new employee assign we are select Employee Name from Drop Down.....For ex: Rahul, If there is 10 Rahul .....Than how you can Identify which Rahul need to assign the region, centre, client etc details....

I would like to suggest...Take Employee ID because this is unique....

For Employee Assign Works Correct

This change is done in C23
Now employee drop down shows values like Fname + Lname +(Employee code),So we can identify employee. please verify....
