Hello Sir,

It is not a bug.
If client is already selected from my DMS option then it will select that client id by default, if not selected then it will show client dropdown for selection.

Thanks,
Rakhi

I have worked as per discussion with Kailash sir and Rahul sir.
Please find following screenshots of it and compare it with html pages on genftp. Only change is when client is selected from My DMS then first page doesnt show client dropdown and it will refer that client by default.

Thanks,
Rakhi
