Renault Nissan API

Hi Navika,

Completed the changes of address fields in RSIL API.

Uploaded on demo site and tried to send one old case but got error 'DB Operation error in FI web service.'

I think client team not changed their webservice yet to receive our response.

On demo site we are using following webservice:

https://nissanfinanceuat.nrfsi.com/pdglosint/services/extagency

In both the templates currently the type of field 'City' is select.

Now, client has given 589 cities so it is not possible to put all options in template design.

So we have to make this field as a input box.(There are two city fields in RV's template and one in BV's template).

Now we have stored all the values of 'City' and 'Locality' in database table to access it and we have set the validation that city should belongs to selected state..

Found same issue for field 'Locality'(suburban) and did the changes same as city field.

There are some more validations on 2 fields :

1. Locality - Locality should belongs to selected city.

2. Pincode - Pincode should belongs to selected locality.

And values of both the fields are given in attached sheet.

Please do the required changes and veify it.

Note : Above validations will work at the time of edit case and only in web application(not in mobile app).

Thanks & Regards,

Rakhi Gaud

Hi Navika,

The given url http://country-pamac.urdemo.net/webservice/rsil/receiveRequest is working,
Please find attached screenshot of it.

Please ask RSIL team to share the error screenshot or more details.

For case 10202650: Client mail:

  For the below application we are getting the below response from PAMAC after submitting new request.

<?xml version="1.0" encoding="UTF-8"?>

<XML><Case-List><message_code>008</message_code><description>error : XML Not in proper format</description></Case-List>

As part of address change , we have added one new field Suburb in the existing request format . Please find request submitted to PAMAC

XML=<?xml version="1.0" encoding="UTF-8"?><XML><Case-List><Case><NotificationId>2310598</NotificationId>

                    <VerificationType>R</VerificationType>

                    <ApplicantName> MOHAMED UMAR</ApplicantName>

                    <ApplicantType>Borrower</ApplicantType>

                    <PAN>BFCPA4629B</PAN>

                    <Address>dfdsfsdfsdfsdfffff|ffdsfsdfsdfsdfsfsf|</Address>

                    <Landmark>opp to city girls shop</Landmark>

                    <Pincode>422203</Pincode>

                    <Location>Nashik</Location>

                    <State>Maharashtra</State>

                    <SubUrban>Girnara</SubUrban>

                    <MobileNumber>9600121514</MobileNumber>

<OfficeName>NRFSI</OfficeName>

<ApplicantCategory>I</ApplicantCategory>

<PrimaryOccupation>EMP</PrimaryOccupation>

</Case></Case-List></XML>

please check and update
Posted By : Rakhi Gaud
D95
Date & Time : 18-04-2016 09:57:AM
Hi,

Please send request 'XML' as an index of array in following format:

```
  $postdata['XML'] = '<?xml version="1.0" encoding="UTF-8"?>
<XML>
<Case-List>
<Case>
<NotificationId>2322899</NotificationId>
<VerificationType>B</VerificationType>
<ApplicantName> SRINIVASA  B R</ApplicantName>
<ApplicantType>Borrower</ApplicantType>
<PAN>BCUPS4488K</PAN>
<Address>TOWER 5A B 4TH FLOOR PRITECH II SEZ|ECOSPACE PARK SARJAPURA OUTER RING
ROAD|</Address>
<Landmark></Landmark>
<Pincode>560103</Pincode>
<Location>Bangalore</Location>
<State>Karnataka</State>
<MobileNumber>9900517574</MobileNumber>
<OfficeName>FIRSTSOURCES SOLUTIONS LTD</OfficeName>
<ApplicantCategory>I</ApplicantCategory>
<PrimaryOccupation>EMP</PrimaryOccupation>
<Suburban>Guntur</Suburban>
</Case>
</Case-List>
</XML>';
```

And pass array($postdata in above example) instead of string variable(XML in example code given by client).
eg. $this->callCurl($postdata);
where callCurl is a function created to receive a request using CURL, which we have created for testing purpose.

Because we are receiving the data in array format and checking the data at index named as 'XML'.

Hi Navika,

Checked the given xml string by client.
There is issue in the sequence of node of XML string.
It should be
<NotificationId/>
<VerificationType/>
<ApplicantName/>
<ApplicantType/>
<PAN/>
<Address/>
<Landmark/>
<Pincode/>
<Location/>
<State/>
<MobileNumber/>
<OfficeName/>
<ApplicantCategory/>
<PrimaryOccupation/>
<SubUrban/>

where it is
<NotificationId/>
<VerificationType/>
<ApplicantName/>
<ApplicantType/>
<PAN/>
<Address/>
<Landmark/>
<Pincode/>
<Location/>
<State/>
<SubUrban/>
<MobileNumber/>
<OfficeName/>
<ApplicantCategory/>
<PrimaryOccupation/>

We have added new node '<SubUrban/>' at the end of xml and in their xml it is after node '<State/>', thats why they are facing the error of xml format.

Please let me know we need to change this or they will change.

Also, PFB client mail for XML:

Dear Navika,

1 . XML response should be in below format for all verification(office and residence)

State

Suburban

city

2. Landmark filed should be made mandatory

Posted By : Kailash Kumawat
D95
Date & Time : 16-09-2016 11:51:AM
Updated master is remaining, There is more than 1,00,000 records for suburban so taking time.
Other task are done on live.
It may take a day to properly import into database.
Posted By : Navika Desai
D95
Date & Time : 16-09-2016 12:15:PM
Rakhi had said that it would be done by 12 today, hence have committed to the client accordingly. Give me the exact time it will take to close this.
Cases are stuck with us and we are not able to share reports with the client, this needs to be closed urgently.
Posted By : Navika Desai
D95
Date & Time : 16-09-2016 04:35:PM
As discussed with Rakhi on skype, team has not worked on this.

I had mentioned about the criticality of this, still no action or response.

This needs to be closed today.
Posted By : Rakhi Gaud

Date & Time : 16-09-2016 04:41:PM

Sorry but today we were busy in replying and completing pending threads.
Updating suburban master will take more time because the data is big.
So, we will complete it by Monday(19-09-2016).

Posted By : Navika Desai
D95
Date & Time : 16-09-2016 04:45:PM
Rakhi, the data size was already known on Wed then why did we estimate wrong.

I had confirmed with you and then only committed to the client. Around 80-90 cases are on hold due to this. I have mentioned many times, we have penalties for not meeting a TAT of 24 hours.

This is a serious concern and has been generally taken granted by you guys.

We cannot fail client commitments, this is not acceptable at all.
Posted By : Kailash Kumawat

Date & Time : 22-09-2016 11:43:AM

Client mail, can this be done?

Hi Navika,

For each and every city description we have different pin code. Request operations team to take city code using sub urban code and pin code. In case of any queries, Please contact my number.

Sample data:

city code	city des	State code	state description	Suburb code	suburb desc	pincode
HY625	-	DFMAH	Maharashtra	AR193153	-	411046

SELECT CITY_CODE CITY_CODE,

    SUBURB_CODE SUBURBCODE

 FROM SUBURBAN_TABLE_NAME

 WHERE SUBURB_DESCRIPTION = '-'

  AND PINCODE = '411046';

Posted By : Rakhi Gaud

Date & Time : 28-09-2016 03:12:PM
There is duplicacy in data, hence clarifying the same with the client.
Posted By : Navika Desai
D95
Date & Time : 29-09-2016 02:17:PM
Had a call with client and below is the summary. Can we do the 2 days development on 30th and 3rd?

Further to our discussion in the call, please find below the procedure that will be followed:

- NFRSI to send the state, city, suburban description & pincode along with the case data through API

- PAMAC to process the case and submit the received description of state, city, suburban and pincode to NFRSI without any inter-dependency checking or validation (we shall also not convert the descriptions into code)

- **Note:** State, City, Suburban description and pincode is received for office address for business verification and current address for residence verification. For permanent address in residence verification, the values are updated by PAMAC field executives, hence descriptions as per PAMAC procedure will be updated and submitted for the same without validation or any conversion to code

Kindly confirm if the procedure is okay, we shall then start working on changing the coding for the same on demo site and once successful will put it on production site.

The development at our end on demo site along with testing will take 2 days.

Please confirm to proceed further.

Date & Time : 19-10-2016 07:28:PM
Client confirmed the changes on demo.

Please put the same on live, let me know when this can be done. Preferrably tomorrow as the cases are stuck. Do i have to do anything for this?

Queries:
1) Will this effect the existing open and closed cases?

Posted By : Rakhi Gaud
D95
Date & Time : 20-10-2016 09:28:AM
Ok. Today I am uploading this on live site.

Do i have to do anything for this?

- I think we have to make all possible fields(in template) required at our end.

Queries:
1) Will this effect the existing open and closed cases?
- Yes, we may face error while sending old cases to client.
If all required fields are not filled.
And one more point that locality is non editable field at our end and it should be come from client request, here we face error in old cases if locality is not given by user.
Posted By : Rakhi Gaud
D95
Date & Time : 20-10-2016 04:51:PM
Uploaded changes on live site.
Also made changes in templates for fields: state, city and locality.
Unable to test it.

Please inform and ask client to push some test cases for testing.
