We need some time to check this. Its year old development.
Let us get over few points in Hand

Once we conclude job in hand which is on more high priority ...
It should be available to you in document provided by Rahul?

there is no document provided by Rahul or Kailash on the initial system design.

I have asked it from Kailash multiple times.

I am not a project manager of this project.
Previously Rahul was there and now you are there as a project manager.
If any lack of documentation it is not my responsibility.
My role in this project is just doing technical help.

You were introduce to us as a project manager in replacement of Rahul.
Till Rahul working from shimbi labs premise we uploaded on documents in myproject, You can see it on first few threads in discussion. Once Rahul shift on mumbai very few documents uploaded.

I was never the technical project manager. This would have been discussed between Pravin Sir & Sid sir.

Also, i was already in the system much before Rahul left, so no question of me being his replacement.
